Dear Mr. Cash:

On May 21, 2010, Tim Campbell, Aaron Wolfe and I conducted an inspection of the Walker Ridge Facility settling ponds. The purpose of the inspection was to determine the facility's compliance status with the terms and conditions of NPDES permit number 0IJ00048*AD. A copy of the inspection report is attached.

As a part of the inspection, we have reviewed your self-monitoring reports from January 1, 2010 to May 1, 2010 for Pike Sanitation. Our review indicates the ponds violated Total Suspended Solids once in April. The specific date and reported value is listed below:

Station	Reporting Code	Parameter	Limit Type	Limit	Reported Value	Violation Date
001	00530	Total Suspended Solids	1D Conc	45	50.	4/26/2010

* 30 D Conc is equal to average monthly concentration limit

I understand that you are still working on the design of your new settling pond and site layout. Please call me at (740) 380-5268 for an update on where you are at in the design process.

Sincerely,

Jack Knapp
