**Re:** Tuscarawas County  
Dover WWTP  
Notice of Violation  
OPD00005, OH0024945  
Correspondence (PWW/Major)

Mayor and Council  
City of Dover  
West Third Street  
Dover, Ohio 44622

Dear Mayor and Council:

We have received your self-monitoring reports covering the months of May through August 2009 for the referenced facility. Our review indicates violations of the conditions of your NPDES permit. The specific instances of noncompliance and/or deficiencies are as follows:

Outfall	Date	Parameter	Reported	Units	Permit Limitation
001	6/10	pH, Minimum	6.36	S.U.	6.5 Minimum

Please inform this office in writing within **ten** days of receipt of this notification as to the reasons for the aforementioned violations, as well as a description of actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed for completion of the actions.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements specified in your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention

programs. For more information about pollution prevention, including fact sheets or U.S. EPA's "*Facility Pollution Prevention Guide*" (EPA/600/R-92.008), please contact the Ohio EPA Pollution Prevention Section at (614) 644-3469.

If there are any questions, please contact me at (740) 380-5206.

Sincerely,

Jennifer M. Witte  
Chemical Engineer - Environmental Specialist II  
Division of Surface Water
