Mr. Eric Compston, Operator
Burr Oak Campgrounds and Beach Wastewater Treatment
10660 Burr Oak Lodge Road
Glouster, Ohio 45732

Dear Mr. Compston:

On July 17, 2008, I conducted a Compliance Evaluation Inspection for the wastewater treatment facility at the Burr Oak Campgrounds and Beach. I was accompanied by Greg Masterson, ODNR, Treatment Plant Operations Manager; Lee Grantz, ODNR, Apprentice Operator and you. The following are the comments from the inspection:

1. The collection system has a large amount of infiltration and inflow. Testing of the collection system should be performed and a report made on the status of the system. Please submit the report to the Ohio EPA, Southeast District Office, Division of Surface Water.
2. Only one side of the treatment system was being utilized at the time of inspection. When designing a new treatment system, flows should be measured and the proper size treatment system should be specified for treatment. Oversized waste treatment facilities can cause operational problems due to inadequate biological processes from insufficient food sources for the growth and maintenance of an adequate microorganism population.

Please respond to this letter within 30 days of receipt.

If you have any questions or comments, please feel free to call me at (740) 380-5227.

Sincerely,

Scott Foster
Environmental Specialist 2
Division of Surface Water
