Dear Ms. Sherburne:

Thank you for your February 18, 2013 response to Ohio EPA's February 4, 2013 Notice of Violation letter. The documentation you submitted consisted of a written description that describes how spent fluorescent lamps will be managed at New Lexington High School and all other schools in the New Lexington City School system. The description indicates that spent fluorescent lamps will be managed as a universal waste and be recycled; and includes documentation that arrangements have been made with Waste Management's lamp recycling program.

My review of this documentation reveals that New Lexington High School has now abated the violation discovered during the January 31, 2013 hazardous waste inspection.

If you have any questions or need assistance, please feel free to contact me at 740-380-5237 or vicky.german@epa.ohio.gov.

Sincerely,

Vicky D. German
