Mr. Dennis Grelle, P.E., Engineering Manager
Rosebud Mining Company
301 Market Street
Kittanning, PA 16201

Dear Mr. Grelle:

On September 7, 2006, Ohio EPA issued a Permit to Install (PTI #561537) for an on-site sewage treatment and disposal system to serve Rosebud Mining Company. A review of your permit reveals the following:

1. Rosebud Mining Company was to notify the Southeast District Office of the Ohio Environmental Protection Agency in writing as to (a) the construction starting date; (b) the construction completion date; and (c) the date the wastewater disposal system was placed into operation.
2. Rosebud Mining is required to monitor and record ground water levels observed in the shallow monitoring well located in the center of the chamber leaching tile once per week. No later than the 15th day of January, April, July and October, Rosebud Mining is required to submit a report to the Ohio EPA Southeast District Office summarizing all the groundwater levels recorded for each quarterly period. The data shall be reported as "inches to measured water level" below existing grade and as inches to measured water level below the bottom of the leach trench. The depth of the leach trench below grade closest to the monitoring well shall be measured after installation and this depth shall be reported with each report submitted to Ohio EPA. The information shall be reported as:
 - Date of observation:
 - Inches to measured water table below grade:
 - Depth of trench below grade closest to the monitoring well:
 - Any comments:

The report shall include this signed certification statement:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision and that all the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are substantial penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

Typed name: _____ Title: _____
Signature: _____ Date: _____

To date, Ohio EPA has not received in writing the construction starting date, the construction completion date or the date the wastewater disposal system was placed into operation. In addition, we have not received the reports summarizing the weekly groundwater levels which were due January 15, 2007, April 15, 2007 and July 15, 2007. Lastly, there is an additional report due no later than October 15, 2007. We expect the aforementioned information to be submitted without further delay. Failure to comply with the conditions of your Permit to Install may result in enforcement action.

If you should have any questions, please contact me at (740) 380-5206.

Sincerely,

Jennifer M. Witte
