Re: Tuscarawas County
Tolloti Pipe, Inc.
Compliance Evaluation Inspection
Correspondence (IWW)

Mr. Ted Tolloti, President
Tolloti Plastic Pipe, Inc.
P.O. Box 508
New Philadelphia, Ohio 44663

Dear Mr. Tolloti:

On February 2, 2010, I conducted a compliance evaluation inspection at Tolloti Plastic Pipe, Inc. The purpose of the inspection was to determine compliance with the terms and conditions of the National Pollutant Discharge Elimination System (NPDES) permit No. 0IQ00025*AD and to prepare for and complete your permit renewal process. Mr. Jack Homman was present during the inspection. My inspection findings are summarized below.

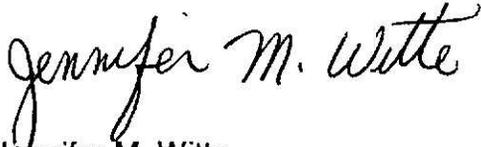

Tolloti Pipe manufactured both solid and perforated PVC pipe to convey sanitary sewage, storm water, etc. Contact cooling water from the manufacturing process and storm water runoff were discharged through outfall 001. Contact cooling water was collected in floor drains in the building and then discharged to the roadside ditch. There are screens in the floor drains to remove any plastic pellets that have fallen on the floor and mixed with the contact cooling water. At the time of my inspection, the facility was not in operation and has not been in operation since October 2007. I understand the facility is currently operating as a wholesale distributor of pipe until raw materials are more affordable.

Your permit expired on June 30, 2006. Ohio EPA received your renewal application on August 31, 2007 and the permit fees on April 4, 2008. Your permit was public noticed and the comment period ended on January 16, 2010. During the inspection, I was informed there were no concerns with the new permit. Your new permit was issued final on February 19, 2010 and becomes effective on April 1, 2010.

At the time of our inspection, we discussed storm water exposure at the site. Your facility only stores finished product outside. It does not appear your facility is required to be covered by a storm water permit. Please find enclosed a copy of the "No Exposure" information which must be reviewed and the form completed and returned to this office no later than April 1, 2010.

The facility appeared to be in substantial compliance with the NPDES permit during the inspection. A copy of our completed inspection report is enclosed. Please submit a written response to the aforementioned comments within 30 days of receipt of this letter. The assistance and cooperation received during the inspection was appreciated. If you have any questions, please contact me at (740) 380-5206.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer M. Witte".
