Re: Wylie Trucking  
Complaint #3038  
Lucas County  
Hazardous Waste  
Notice of Violation/Partial Return to Compliance

March 30, 2011

Mr. Dick Wylie, Owner  
Wylie Trucking  
9225 Angola Road  
Holland, Ohio 43528

Dear Mr. Wylie:

On March 16, 2011, the Ohio Environmental Protection Agency (Ohio EPA) conducted a complaint investigation and compliance evaluation inspection of Wylie Trucking (Wylie) located at 9225 Angola Road in Holland, Ohio. The Ohio EPA received a complaint that you were dumping used oil on the ground, using oil to start fires, burning tires, and dumping antifreeze on the ground.

Wendy Miller and I inspected Wylie to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). This letter will explain the validity of the complaint, the violations we found as a result of our inspection/complaint investigation, and what you need to do to correct these violations.

During our visit, we spoke with you and your son, Rich Wylie, and inspected your facility/property. Wylie is a trucking company who owns and services a fleet of semi trucks. Used oil is generated from the truck service work that is done on-site. Used oil is stored in 55-gallon drums. Rich Wylie stated that the used oil is given to Tom Wylie who uses it at his business, Wylie & Sons Sand & Stone, in his used oil burner. The used oil filters are hot-drained and managed as solid waste. As we discussed during our visit, Wylie may want to recycle the used oil filters as scrap metal. Wylie also generates spent fluorescent bulbs that are managed as solid waste. At the time of our inspection, Wylie was operating as a non-generator of hazardous waste.

We found the following violations of Ohio's hazardous waste and used oil laws. In order to correct these violations you must do the following and send me the required information within 30 days of your receipt of this letter:

**1. OAC Rule 3745-52-11: Waste Evaluation:**

Any person who generates a waste must determine if that waste is a hazardous waste by using generator knowledge or by testing the waste.

Wylie failed to have waste evaluation documentation or an established recycling plan in place for the fluorescent bulbs generated at the facility.

Wylie must immediately cease disposing of the fluorescent lamps as non-hazardous waste until a proper waste evaluation has been completed. Incandescent, fluorescent, metal halide, neon, high-intensity discharge, high-pressure sodium and mercury-vapor lamps could be hazardous waste when discarded. Fluorescent lamps may contain up to 40 milligrams (mg) of mercury, depending on the brand and manufacturer. Lamps may also contain lead and cadmium. Many lamps exhibit a characteristic of toxicity for heavy metals when disposed.

A copy of Fluorescent Lamps: What You Should Know, was given to you at the time of our inspection. I recommend that you review this document and contact me if you have any questions.

Hazardous bulbs are considered "spent materials" and remain hazardous waste even when recycled. Hazardous waste lamp generators have the option of handling their lamps as hazardous waste or as universal waste. Managing hazardous waste lamps under the universal waste rules eases certain regulations imposed on generators of spent lamps.

Basically, you can run analytical to determine if the spent bulbs contain mercury, lead, or cadmium (if you would like to continue to dispose of them) OR you can choose to manage them through the universal waste rules by recycling. When the bulbs are recycled as a universal waste, they are not considered a hazardous waste. You must ensure that the spent bulbs are recycled within one year of being generated and that you keep documentation showing the bulbs were recycled. In addition, you must label the box containing the burned out bulbs (prior to recycling) with the words "universal waste lamps".

To abate this violation, Wylie must confirm how you plan to manage the spent bulbs in the future and where they will be recycled if you choose to handle them as universal waste.

**2. OAC Rule 3745-279-22(C)(1): Labeling:**

Containers, aboveground tanks, and fill pipes used for underground storage tanks shall be labeled or marked clearly with the words "used oil."

Wylie had two 55-gallon poly drums of used oil that were not properly labeled.

At the time of our inspection, Wylie properly labeled the 55-gallon drums with the words "used oil". A copy of the fact sheet, The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil, was given to you at the time of our inspection. Please review this information and contact me if you have any questions.

***Therefore, this violation is considered abated.***

**3. OAC Rule 3745-279-24: Off-Site Shipment:**

Generators shall ensure that their used oil is transported only by transporters who have obtained an EPA identification number.

Wylie has been giving the used oil they generate to another business, Wylie & Sons Sand & Stone, who burns it in a used oil burner. On March 29, 2011, I spoke with Tom Wylie regarding the used oil you give to his business. Wylie Trucking and Wylie & Sons Sand & Stone are not owned and/or operated by the same person, therefore, neither location can be considered an aggregation point as outlined in OAC Rule 3745-279-24(B).

Wylie must immediately cease giving used oil to any person or transporter who does not have an EPA identification number.

In order to correct this violation, Wylie must notify Ohio EPA with how you plan to manage your used oil in the future and provide the applicable documentation for review.

Ohio EPA will issue an EPA ID number to track our inspection activity. Wylie cannot use this number for manifesting hazardous waste shipments. If Wylie wants to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, you must complete and submit a Notification of Regulated Waste Activity form (*EPA Form 9029 (Rev. 11/2002)*) to Ohio EPA. This form is available on our web page at <http://www.epa.state.oh.us/dhwm/notiform.html> or you can call me at (419)373-3066 or the Division of Hazardous Waste Management, Central Office, RIS at (614)644-2977 and we will mail you a copy.

OAC Rule 3745-27-60 (B) states, "The storage of scrap tires in any amount outside or inside a trailer, vehicle, or building shall be deemed a nuisance, a hazard to public health or safety or fire hazard..." and Ohio Revised Code 3734.03 states, "No person shall dispose of solid wastes by open burning or open dumping, except as authorized by the director of environmental protection...". A copy of the Fact Sheet, How do Ohio's Scrap Tire Rules Affect Generator's of Scrap Tires?, is enclosed. Please review this information and contact Sue Hardy, Division of Solid and Infectious Waste Management, at 419-373-3043 if you have any questions.

If the owner/ operator wishes to transport more than ten tires at a time, a scrap tire transporter registered with the State of Ohio must be used. Enclosed is a list of registered tire transporters in Ohio. Please note the registered tire transporters are listed by the county their business is located in; they are registered to transport in the entire state of Ohio.

Ohio EPA has helpful information about compliance assistance and pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>. In addition, you can find copies of the hazardous waste rules and other information on the division's web page at: <http://www.epa.ohio.gov/dhwm/>.

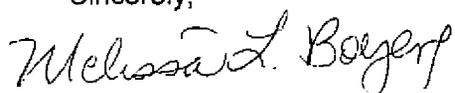

Mr. Dick Wylie, Owner  
March 30, 2011  
Page 4

Enclosed you will find a copy of the checklists that were completed during the inspection.

In regards to the complaint investigation, the Ohio EPA did not find evidence to support the complainant's allegations; therefore, the Ohio EPA considers the complaint investigation closed.

Should you have any questions or if I can be of assistance, please contact me at (419) 373-3066.

Sincerely,

Melissa L. Boyers  
Division of Hazardous Waste Management

 Used Oil Fuel Marketer who first claims the Used Oil meets the specifications

**Eligible Academic Entities with Laboratories:** Facility has previously notified that they are opting into managing laboratory hazardous waste pursuant to OAC rules 3745-52-200 through 3745-52-216. Check the box(es) below to indicate the laboratory type.

- College or University  
 Teaching hospital that is owned by or has a formal written affiliation agreement with a college or university  
 Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

**Waste Codes for Federally Regulated Hazardous Wastes.** Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

**COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.**

**Comments:**

**52-11 cited for spent fluorescent bulbs. Facility plans to manage them as universal waste once they generate them.**

## PROCESS DESCRIPTION/WASTE ACTIVITIES SUMMARY

**Facility Name:** Wylie Trucking

**Facility Type:** LQG/SQG/CESQG/TSD

**EPA ID#:**

Description of Waste				On-Site Management			Off-Site Management
Process/Activity Generating Waste (e.g. plating bath, machining, baghouse, painting, etc)	Waste Generated (e.g. sludge, spent solvent, ash, etc)	EPA Waste Code	QTY Generated per Month	Type of Accumulation / Storage (e.g. container, tank, etc)	Type of On-Site Treatment (recycle, wwt, etc)	Waste Location (Include map if possible)	Name, state, and type of activity occurring at the facility.
1	Lighting						Managing as solid waste.
2	Semi Truck Maintenance	Used Oil		55-gallon drums		Outside the Shop Area	Giving it to another business to use in their used oil burner.
3	Semi Truck Maintenance	Used Oil Filters					Managing as solid waste.
4							

**USED OIL INSPECTION CHECKLIST  
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

*NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.*

**PROHIBITIONS**

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: For example, used oil contaminated scrap metal stored in a pile.*

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).*

**GENERATOR STANDARDS**

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.*

5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	--	--

*NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.*

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
8.	Are <u>containers</u> , above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	
a.	Stopped the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

**ON-SITE BURNING IN SPACE HEATER**

10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).*

**GENERATOR TRANSPORTATION**

11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator?[3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time?[3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).*

**COLLECTION CENTERS AND AGGREGATION POINTS**

13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

*NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.*
