PT Tech Corp.

Sharon Center, OH 44274

Dear Mr. Shivak:

On February 6, 2013, the Ohio EPA's Division of Materials and Waste Management conducted a hazardous waste compliance inspection of PT Tech Corp., located at 1441 Wolf Creek Trail, Sharon Center, Ohio. The facility was inspected to determine its compliance with Ohio's hazardous waste laws and rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

During the inspection, it was determined that the facility is a conditionally-exempt small quantity generator (less than 100 kilograms of hazardous waste generated per month). The following violation of Ohio hazardous waste laws was found during the inspection:

OAC Rule 3745-279-22(C), Used Oil Generator Standards: All containers and aboveground tanks used to store used oil must be labeled or marked clearly with the words "Used Oil."

At the time of the inspection, the small aboveground used oil tank located near the maintenance area was not properly labeled with the words "Used Oil."

A "Used Oil" decal was applied to the tank during the inspection. The violation was abated so no further action is necessary.

Ohio EPA's Office of Compliance Assistance and Pollution Prevention (OCAPP) offers non-regulatory on-site pollution prevention assessments. If you are interested in an assessment, you can contact Adrienne LaFavre at (330) 963-1200 or visit OCAPP's website at: <http://www.epa.ohio.gov/ocapp>.

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAinfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
