Dear Ms. Suhoski:

On February 4, 2013 I received your letter responding to my Notice of Violation letter dated January 18, 2013. The documentation you submitted included: waste analytical, a revised contingency plan, receipts showing delivery of contingency plans to Morgan County Police Department and Genesis Healthcare System, and a hazardous waste manifest.

My review of this documentation reveals that Miba has adequately demonstrated abatement of the following violations discovered during the inspection conducted on June 6 and 11, 2012. For clarity these abated violations are numbered consistently with the numbering used in Ohio EPA's letter dated July 27, 2012.

- (2) OAC Rule 3745-52-11, Waste Evaluation**
- (14) OAC Rule 3745-65-52(E), Content of Contingency Plan**
- (15) OAC Rule 3745-65-52(F), Content of Contingency Plan**
- (16) OAC Rule 3745-65-53(B), Content of Contingency Plan**

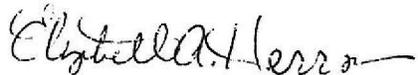

With the exception of **ORC § 3734.02(E) and (F)**, Miba has now returned to compliance for all violations discovered during the June 6 and 11, 2012 inspection. As stated in previous letters, the **ORC § 3734.02(E) and (F)** violations will remain until addressed through Ohio EPA's enforcement process.

Ohio EPA is in the process of evaluating the regulatory impact of Miba's recent determination that the resultant mixture of used oil and hazardous waste floor wash water was a F003 D008 hazardous waste. Once Ohio EPA has completed our evaluation, further information will be provided to you in a separate letter.
