**NOTICE OF VIOLATION – ACTION REQUIRED**

Mr. Walter Cook  
Coble Village MHP  
128 Academy Drive  
Wilmore, Kentucky 40390

Huron County  
Coble Village MHP  
Community PWS  
PWS ID: OH3900112

Dear Mr. Cook:

Coble Village MHP is in violation of Ohio Revised Code Chapter 6109 as follows:

In violation of OAC 3745-81-70 (E)(1), the public water system failed to report the average value of all total chlorine residual analysis that were to be performed concurrently with the collection of total coliform bacterial samples in the month.

Failure to monitor the distribution system for chlorine residuals requires a tier 3 public notification per OAC 3745-81-32 (D). Public notice must be accomplished within one year for community systems; non-community systems must public notify within 30 days. An example public notice is enclosed for your reference. A verification form, attesting to the issuance of the public notice, is also enclosed. A copy of the public notice along with the verification form needs to be returned to this office within the timeframes cited earlier. If a community system wishes to provide public notice via the consumer confidence report then please contact this office for additional instruction.

Coble Village MHP must take immediate action to resolve this/these violation(s). Ohio EPA may take action to enforce the requirements of its drinking water rules. A civil penalty could be assessed as part of this enforcement action. Your response to this letter is required by April 8, 2013.

If you have any questions, please contact me at (419) 373-3108 or by e-mail at [janis.damico@epa.state.oh.us](mailto:janis.damico@epa.state.oh.us).

Sincerely,

*Janis D'Amico*

# DRINKING WATER NOTICE

## Monitoring requirements not met for Coble Village MHP

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 2013 we did not monitor for total chlorine and therefore cannot be sure of the quality of our drinking water during that time.*

### What Should I Do?

This notice is to inform you that Coble Village MHP did not monitor and report results for the presence of total chlorine in the public drinking water system during the January 2013 time period, as required by the Ohio Environmental Protection Agency. You do not need to take any action in response to this notice.

### What is being done?

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters. The water supplier will take steps to ensure that adequate monitoring will be performed in the future.

For more information, please contact \_\_\_\_\_ at \_\_\_\_\_ or \_\_\_\_\_.
