Subject: Notice of Violation for Failure to Respond to a Significant Deficiency

Dear Mr. Eggeman:

This letter is notification that the St. Michael's Lutheran Church public water system has not complied with requirements issued during this Agency's last survey performed on August 25, 2010, in violation of rule 3745-81-60 of the Ohio Administrative Code. St. Michael's Lutheran Church public water system was notified in correspondence dated September 14, 2010, to respond in writing within 45 days of receipt of your letter, with time frames for the following requirements:

REQUIREMENT(S)

- Public Notification - Our records indicate that St. Michael's Lutheran Church failed to post a public notice for two of the aforementioned violations. In order to correct the violations, you must post public notices (enclosed) for these violations. The notice must be posted for a minimum of ten days. Within 45 days, please send a copy of the notices that you posted, along with the completed verification forms (back sides of the public notices), to this office.

RECOMMENDATION(S)

- SWAP - The 1996 Amendments to the Safe Drinking Water Act require Ohio EPA to conduct source water assessments for all public water systems. The assessment of your water system will assist you in identifying the potential threats to your water supply, and help you develop protective strategies for your water supply. These reports contain checklists of protective strategies for contaminant sources identified within the report. The reports also identify the susceptibility of your sources to contamination. A SWAP report was issued to your PWS on August 18, 2005, and identified the susceptibility of your source to contamination as low.

A second copy of this report was requested to be sent to you. Please review your report and complete the checklists of protective strategies. Return the checklist to this office within 45 days of this letter date. Specific questions that you may have about the SWAP report can be answered by contacting Kathie Epp at (330) 963-1200.
