RE: MEDINA COUNTY
MEDINA COUNTY/NORTHWEST
MEDINA COUNTY/SHARON SPRINGS
COMMUNITY WATER SYSTEMS
PWS ID NO's: 5201903, 5200812

Mr. Larry Bailey
Water Supply Coordinator
Medina County Sanitary Engineers
P.O. Box 542
Medina, OH 44258

Dear Mr. Bailey:

We have reviewed the 2006 Consumer Confidence Reports (CCRs) for the Medina County/Northwest and Medina County/Sharon Springs water systems and have comments regarding the following minor violations:

1. Medina County/Sharon Springs - In 2006 the action level for copper was exceeded. When an action level is exceeded, Mandatory Health Effects Language is required to be included in the CCR. The health effects language for copper was not included as required. This language can be found in Appendix B of the Ohio EPA CCR-Instruction Guide. A copy has been attached for your information. If the system again exceeds any MCL, MRDL, TT, or AL, please ensure that the required exceedance language is included as required in the CCR.
2. Medina County/Northwest - Educational Information mandatory language is required to be included in all CCRs. Review of the Northwest CCR revealed that the Required Additional Health Information paragraph was included; however, the four paragraphs under Additional Information, also mandatory language, were not included. Please ensure that all of the mandatory language (copy enclosed) is included as required in the 2007 CCR.

If you have any questions or if I can be of assistance, please contact me directly at 330-963-1235.

Respectfully,

Leslie Otten
Environmental Specialist
Division of Drinking & Ground Waters
