If total coliform samples were collected as required, submit the results as soon as possible. The monitoring violation would be rescinded and a reporting violation given for late submittal of the results.

If you have any questions, contact this office at 740-380-5207.

Sincerely,

Sarah Wallace  
Environmental Engineer

# DRINKING WATER NOTICE

## Monitoring requirements were not met for U-Save Food Mart PWS

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During Third Quarter of 2011, we did not complete all monitoring or testing for total coliform bacteria in a timely manner, and therefore cannot be sure of the quality of your drinking water during that time.

### What Should I Do?

- *There is nothing you need to do at this time. You do not need to boil your water or take other corrective action.*
- *This notice is to inform you that U-Save Food Mart PWS did not monitor and report results for the presence of total coliform bacteria in the public drinking water system during the Third Quarter of 2011 time period, as required by the Ohio Environmental Protection Agency.*

### What is being done?

Upon being notified of this violation, the water supply was required to have the drinking water analyzed for the above mentioned parameters. The water supplier will take steps to ensure that adequate monitoring will be performed in the future. The samples required in July were taken in August and were all TC negative.
