Ohio EPA received the Village of Gnadenhutten's Consumer Confidence Report (CCR) for 2007. The CCR was reviewed for the required content. Based on our review, the Village of Gnadenhutten's water system is in violation of rules 3745-96-01 through 04 of the Ohio Administrative Code for failure to comply with the CCR requirements. The following violation was noted:

- the Table of Detected Contaminants did not include the residual disinfectant information as required (the chlorine results at the time of bacteriological sample collection), TC positive result, TTHM result and the Radium 228 result.

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers no later than June 30, 2009. A copy of the CCR along with a Certification Form must be submitted to this office no later than July 1, 2009.
