Subject: failed to submit a complete Title V compliance certification in violation of the Title V permit terms and conditions and Ohio Administrative Code (OAC) rule 3745-77-07(C)(5).

Dear Ms. Denoncourt:

The purpose of this letter is to bring to your attention that Texas Eastern Transmission-Somerset Station failed to submit a complete compliance certification for the Calendar Year 2007 period, in violation of OAC rule 3745-77-07(C)(5), the terms and conditions of your Title V Permit (Part I. A.), and Ohio Revised Code (ORC) Section 3704.05(C). Provided below is a description of the deficiencies with your initial compliance certification submittal:

- Title V Compliance Certification Instructions F. states, *"Intermittent compliance with any State and federally enforceable Term or Condition will also require identifying intermittent compliance with General Term and Condition Part I.A.6."* The Title V compliance certification for 2007 submitted by Texas Eastern did not identify intermittent compliance with any of the General Terms and Conditions outlined in the Title V. Please review the General Terms and Conditions and make appropriate changes, and resubmit the Title V compliance certification.

It is important that your company immediately prepare a revised compliance certification and submit this required compliance certification, as soon as possible, but not later than 30 days from receipt of this letter.

If you fail to submit the revised Title V compliance certification by the deadline, we will have no choice but to refer this matter to Columbus for appropriate enforcement action that could include the assessment of civil penalties.
