Mr. Michael Dye
Facility Manager

1510 Moxahala Ave.
Zanesville, Ohio 43701

Dear Mr. Dye:

On June 4, 2013, I performed a compliance inspection of your facility to determine its compliance with Ohio's hazardous waste laws and regulations as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

During the inspection, a violation of the following hazardous waste regulation was observed:

- (1) **Used oil storage requirements for generators, OAC rule 3745-279-22(C):**
Paragraph (C): Containers and aboveground tanks used to store used oil at generator facilities shall be marked clearly with the words "Used Oil."

During the inspection, we observed two 55-gallon drums in the storage trailers were not labeled "Used Oil". You properly labeled the drum and provided photographs demonstrating this on June 4, 2013; therefore, no further action is necessary.

All violations cited during the June 4, 2013 inspection have been abated.

I have attached a factsheet regarding used oil management and the compliance checklist that I used to evaluate your facility.

Additional information on the hazardous waste rules, pollution prevention assessments and other useful information is available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Materials and Waste Management
