Mr. Allen Stickell
S & G Manufacturing Group, LCC
4830 Northwest Parkway
Hilliard, OH 43026

Dear Mr. Stickell:

This office has completed a review of the Permit-to-Install and Operate (PTIO) application submitted by S&G Manufacturing on September 9, 2009. I sent you an e-mail dated October 29, 2009, requesting the calculations for the finishing booth and the laminate booth. As of January 6, 2010, I have not received the requested information.

The requested amount of 3.6lbs/hr of VOC emissions does not match the MSDS nor does it match the EAC form submitted which indicates the emission rate to be 1.14lbs/hr. I cannot permit you for 5 TPY for these units if you are not emitting 5 TPY even if you are using this number as a precaution. Therefore, I am returning your application for the finishing booth and laminate booth.

Within thirty days of receipt of this letter, please submit a new PTIO application to the Ohio EPA Southeast District, DAPC addressing each of the above-mentioned deficiencies.

It is a violation of OAC rule 3745-31-02(A) to install and operate an air emission source without first obtaining a PTIO.

Acceptance by the Ohio EPA of a schedule for compliance does not constitute a waiver of the Ohio EPA's authority to seek civil penalties as provided in section 3704.06 of the Ohio Revised Code. The determination to pursue or decline to pursue such penalties in this case will be made by the Ohio EPA at a later date.

Mr. Allen Stickell
S & G Manufacturing Group, LCC
