Dear Ms. Campbell:

This office received a complaint on May 14, 2013, concerning open burning being conducted on the property you currently occupy, addressed above. Our investigation, conducted on May 15, 2013, shows metal barrels on the property have been used to burn household trash including plastics and a recreational fire ring has been used to burn wood construction and demolition debris.

Based on these findings, there is sufficient evidence to determine that illegal open burning did occur and the complaint is justified. This is a violation of both Ohio Administrative Code (OAC) rule 3745-19-04(A) and Ohio Revised Code (ORC) 3704.05.

Because the fire has been extinguished, you are no longer in violation and the property is considered to have returned to compliance with the above cited violations.

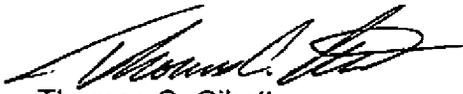

A copy of the OAC rules pertaining to open burning has been enclosed for your review. To be clear, after a review of the area property limits, you are not permitted to burn any wastes on your property because you cannot remain on the property and meet the 1000' minimum distance from adjacent inhabited structures, as identified in OAC rule 3745-19-04(B)(3)(c). Accordingly, you are only permitted to have a recreational or ceremonial fires which comply with OAC rule 3745-19-04(B)(2). Please provide a written response acknowledging your receipt of this letter and your understanding of the rules. If you do not understand the rules please contact this office for additional explanation before responding. Your response is requested no later than June 3, 2013.

Ohio EPA will determine later whether to pursue such penalties in this case. The decision on whether to pursue or decline to pursue such penalties regarding this matter is dependent on several factors, one of which is your future compliance with applicable Ohio EPA requirements.
