Dear Mr. Abdo:

This letter shall serve as follow-up to The Ohio Environmental Protection Agency (Ohio EPA), Northwest District Office (NWDO), Division of Air Pollution Control's April 15, 2013 inspection of the facility located at 108-114 N State Street, Fremont, Ohio. On April 12, 2013 Ohio EPA received a complaint that indicated demolition was being completed at the facility and the asbestos had not been removed. At the time of the inspection partial demolition of the facility had been completed and Abdo Wrecking was onsite performing dismantling work, removing decorative ceiling panels from the standing portion of the building. It appears the asbestos had been removed from the facility. Upon review of the most current notification submitted, it was found the scheduled completion date for this facility was March 25, 2013. This is a deviation in the demolition or renovation schedule provided to Ohio EPA.

Ohio EPA's rules regarding changes to information provided by the notice are contained in Ohio Administrative Code (OAC) rule 3745-20. Specifically, OAC rule 3745-20-03(D) requires an amended written notification be submitted as soon as possible but not later than one working day following discovery of the change.

This notice of violation is being issued for the following:

1. Violation of OAC rule 3745-20-03(D)(2) "Standard for notification prior to demolition or renovation," for failure to submit an amended written notification no later than one working day to the Ohio EPA field office regarding deviation in the demolition or renovation schedule.

Mr. Mike Abdo

Please note that the submission of the requested information to respond to this letter does not constitute waiver of the Ohio EPA's authority to seek civil penalties as provided in Section 3704.06 of the Ohio Revised Code. Ohio EPA will determine later whether to pursue such penalties in this case. If you have any questions, please feel free to contact me, Josh Clifton at (419) 373-3058 or Mr. Tom Sattler at (419) 373-3116.
