Mr. Michael Kruman, Terminal Manager  
Estes Express Midwest  
792 5<sup>th</sup> Avenue  
Mansfield, Ohio 44905

Dear Mr. Kruman:

Thank you for your responses to Ohio EPA's April 11, 2013, Notice of Violation letter (NOV). The following information was submitted:

- April 17, 2013 - via email by Jeff Torman, Estes Express, the Chemtron Field Service Job Sheet from the sampling of the drum on March 27, 2013;
- May 8, 2013 – via email from Mike Sheaves, Chemtron Corporation, pictures of the waste material from the drum sampled on March 27, 2013, (brown sand/dirt type material);
- May 9, 2013 – via email from Mike Sheaves, Chemtron Corporation, analytical from the sampling of the drum which indicates this drum is a non-hazardous waste.

My review of this information reveals that Estes Express Lines has adequately demonstrated abatement of the violation discovered during the March 26, 2013, inspection as listed below:

Violation	Date Violation Observed	Date Violation Abated
1. OAC Rule 3745-52-11 Waste Evaluation	March 26, 2013	May 9, 2013

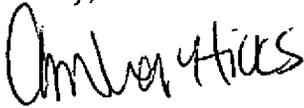

I emailed Mr. Torman on May 13, 2013, stating that based on this analytical, the waste in the drum is non-hazardous. Estes Express Lines should move forward with disposal of the drum at your local landfill. The landfill will most likely require that you provide them your analytical. Estes Express Lines will need to coordinate with the landfill for disposal.
