**RE: AGMET, LLC, MAPLE HEIGHTS, CUYAHOGA COUNTY, OHR000161299
VARIANCE COMPLIANCE INSPECTION, NOV - RTC**

Dear Ms. Graham:

On June 25, 2013, I inspected the Agmet Maple Heights facility to determine its compliance with its Variance, and the Ohio hazardous waste and used oil rules and laws as found in Chapter 3745 of the Ohio Administrative Code and Chapter 3734 of the Ohio Revised Code. My inspection included a review of your operations and records. Anatoliy Puzerey began the plant tour with me then Jaime Cleary and Brian Agin accompanied me. Pictures were taken during the tour.

This is one of two Agmet facilities in Ohio. The other facility is located in nearby Oakwood Village. Agmet is in the business of reclaiming metal oxides (nickel, copper, cobalt, tin and zinc) from secondary materials. The metal oxides, referred to as Metal Concentrate, are sold to smelters as feedstock. Both facilities operate with a Variance from classification as a waste, granted by Ohio EPA on December 22, 2005. This Variance allows this facility to accept and store Metal Concentrate Variance Material without a permit. Crushing, blending, and drying of product and non-hazardous catalysts occur here.

Spent lamps are the only hazardous waste generated at this site and they are sent off-site for recycling as universal waste. We understand that all catalysts are non-hazardous. On-site generated used oil is used on-site to lubricate the conveyor. Off-site used oil is used as a de-dusting agent on product that will not be calcined.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:
