**RE: METRO MACHINE AND TOOL INC., OHR000175950, COMPLAINT 7591,
GEAUGA COUNTY, RTC**

Dear Mr. Mizda and Mr. and Mrs. Taylor:

On February 15, 2013, this writer, representing Ohio EPA's Division of Materials and Waste Management (DMWM), conducted a complaint inspection at the Metro Machine and Tool, Inc. (Metro Machine) facility located at 10051 Stafford Road in Chagrin Falls, Ohio. The findings of the inspection were presented to you in Ohio EPA's March 6, 2013 Notice of Violation (NOV) letter. On March 15, 2013, this writer received Mr. James Alfieri's response, submitted on behalf of Metro Machine, to Ohio EPA's March 6, 2013 letter. Since that time, Mr. Alfieri has implemented corrective actions at the facility.

Subsequently, on July 2, 2013, this writer conducted a follow-up inspection at the Metro Machine facility. Metro Machine was represented by Mr. Alfieri.

The following is the status of the violation appearing in Ohio EPA's March 6, 2013 NOV letter:

1. Waste Evaluation, OAC rule 3745-52-11:
 - A. Interior of Building: The containers previously located inside the building were either reused or shipped off-site to a facility for management. Mr. Alfieri provided documentation that on June 28, 2013, one, 55-gallon drum of used oil was shipped off-site for management.

- B. Exterior of Building (east side): The contents of two, 55-gallon drums were evaluated and shipped off-site to a facility for management. Mr. Alfieri provided documentation that on June 28, 2013, two, 55-gallon drums of tar were shipped off-site for management.

This violation has been adequately addressed. No further response is requested.

Ohio EPA has the following comments:

2. Mr. Alfieri provided documentation that on May 17, 2013, scrap tires from the facility were shipped off-site using a registered scrap tire transporter.
3. Approximately 29, 55-gallon steel drums (empty), as well as other metal debris/equipment remain on the exterior, east and south sides of the facility.

Nothing in this letter shall be construed to authorize any waiver from the requirements of any applicable state or federal laws or regulations. This letter shall not be interpreted to release the owner or operator or others from responsibility under Chapters 3704, 3714, 3734, or 6111 of the Ohio Revised Code or under the Federal Clean Water or Comprehensive Environmental Response, Compensation and Liability Acts remedying conditions resulting from any release of contaminants to the environment.

Should you have any questions, please contact me at (330) 963-1108.

Sincerely,

Frank A. Zingales
Environmental Specialist
Division of Materials and Waste Management
