RE: Rescinding Violation - TCR

Dear Public Water System Owner:

On March 30, 2012, I sent you a letter for failure to comply with the total coliform monitoring requirements for February, 2012. We have since received all the required sample results collected during this monitoring period. Therefore, the monitoring violation has been rescinded.

The missing sample was originally reported under a different public water system ID number, and the result was not correctly reported until April 13, 2012. Please remember to check your eDWR account regularly to verify that your laboratory has properly and timely submitted all required sample results on your behalf.

OAC 3745-81-31 and 3745-89-08 require results to be reported by the tenth day following the month the sample was collected. Further, OAC 3745-89-08 requires the laboratory to report all positive, all repeat sample results and all samples required by OAC 3745-81-42 (Ground Water Rule) no later than the end of the next business day after the result was obtained. The sample was not reported in accordance with the above rules and this is considered a reporting violation.

Please ensure future sample results are submitted as required. If you have any questions, please contact me at 937-285-6085.

Sincerely,

Tya Darden
Environmental Specialist
Division of Drinking Water
