Subject: Rescinding Violation – TCR

Dear Mr. Bonecutter:

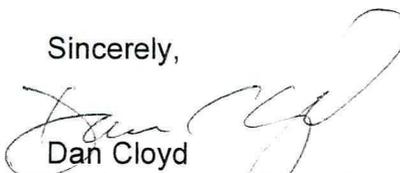

On May 1, 2012, Dave Secor, of this office, sent you a letter for failure to comply with the total coliform monitoring requirements for March, 2012. We have since received all the required sample results collected during this monitoring period. Therefore, the monitoring violation has been rescinded.

The missing sample result was not reported until June 4, 2012. Please remember to check your eDWR account regularly to verify that your laboratory has properly submitted all required sample results on your behalf in a timely manner.

OAC 3745-81-31 and 3745-89-08 require results to be reported by the tenth day following the month the sample was collected. Further, OAC 3745-89-08 requires the laboratory to report all positive, all repeat sample results and all samples required by OAC 3745-81-42 (Ground Water Rule) no later than the end of the next business day after the result was obtained. The sample was not reported in accordance with the above rules and this is considered a reporting violation.

Please ensure future sample results are submitted as required. If you have any questions, please contact me at (937) 285-6844.

Sincerely,

Dan Cloyd
