**Re: Partial Closure Letter for the Clow Water Systems Company
Removal
Clow Water Systems
OHD 004 294 894**

Dear Ms. Klesch:

On June 4, 2008, Ohio EPA approved the closure plan for the Container Storage Area located at Clow Water Systems Company facility at 2266 South Sixth Street in Coshocton, Ohio.

On November 7, 2008, the director received partial closure certification documents for the Container Storage Area for Clow Water Systems Company. Jeff Otterstedt and Nick Perrotta certified that the Container Storage Area has been closed according to the specifications in the approved closure plan. The type of closure was an unrestricted closure by removal.

To verify Clow Water Systems Company's closure activities, Rich Stewart from Ohio EPA's Southeast District Office, conducted an inspection of the Container Storage Area on November 14, 2008. He also reviewed documents pertaining to the closure of the Container Storage Area and determined that the activities proposed in the closure plan were conducted adequately.

Based on this inspection and review, Ohio EPA has determined that Clow Water Systems Company has closed the Container Storage Area according to the approved closure plan and Ohio Administrative Code (OAC) rules 3745-66-11 through 3745-66-15.

The facility's compliance with closure obligations under Ohio's hazardous waste laws does not discharge Clow Water Systems Company's obligation to investigate and possibly clean up contamination from releases of hazardous waste or hazardous constituents at the facility, regardless of when the waste was placed in the unit. This requirement is known as RCRA Corrective Action.

Clow Water Systems Company has completed partial closure for the Container Storage Area. However, the following units are still subject to closure requirements under OAC rules 3745-66-11 through 3745-66-15: Surface Impoundments-Cells 1 & 2, Concrete Pond.

If you have any questions concerning the closure process or the status of the facility, please contact Rich Stewart by phone at 740-380-5278, or by mailing address at:
