Dear Mr. Lehman:

On March 19, 2007, Dale Warner, Joe Holland (Division of Solid and Infectious Waste Management), Ralph Fogle (Coshocton County Health Department), and I performed a compliance inspection to determine your facility's compliance with Ohio's hazardous waste and solid waste laws and regulations as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC).

Based on this inspection, Notice of Violation letters were issued to you on March 23 and July 6, 2007. I have not received the documentation requested in those letters, so I performed a site visit on September 6, 2007.

Based on my observations from this visit, you have abated the following violations of the hazardous waste regulations:

- i. OAC rule 3745-279-22(D), Response to releases;
- ii. OAC Rule 3745-279-22(C), Used oil storage requirements for generators.

**Other Compliance Issues:**

- (a) I understand that you plan to have all operations under roof in the near future. Until that is achieved, you will have to ensure that used oil is not released from the scrap boxes, and to the extent that some releases do occur, collect and dispose of contaminated soil.

Your facility has now returned to compliance with all regulations cited from the March, 2007 inspection. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart  
District Representative  
Division of Hazardous Waste Management
