**RE: AMERICAN ENGINEERING AND  
METALWORKING  
NON-GENERATOR  
OHD 987 018 330  
STARK COUNTY  
NOV/RTC**

Mr. Kirk McCauley  
American Engineering and Metalworking  
8990 Pleasantwood Ave., NW  
N. Canton, Ohio 44720

Dear Mr. McCauley:

Thank you for accompanying me during my July 10, 2013 inspection of American Engineering and Metalworking (AEM) in N. Canton, Ohio. I inspected AEM to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). My inspection included a review of company operations and written documentation.

AEM is a sheet metal fabrication shop. Processes include laser cutting, rolling, stamping and powder coating. No hazardous waste is currently generated at the facility.

In addition to the inspection for compliance with Ohio's hazardous waste rules, the facility was inspected for compliance with Ohio's used oil rules and universal hazardous waste rules. The inspection did reveal the following violation of Ohio's used oil rules:

- 1. OAC Rule 3745-279-22(C), Used Oil Generator Standards:** Containers, above ground tanks, and fill pipes used for underground tanks used to accumulate used oil must be clearly marked "Used Oil." During my inspection, I observed the 55 gallon container used to accumulate used oil. It was not labeled with the words "used oil," a violation of OAC 3745-279-22(C). During my inspection, you attached a used oil label to the container, returning AEM to compliance with this violation. No further action regarding this violation is requested.

Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:*
