**Subject: Rescinding Violation – TCR**

Your public water system was issued a notice of violation of Rule 3745-81-21 of the Ohio Administrative Code (OAC), dated July 26, 2013 for the monitoring period of second quarter of 2013. The sample was collected on April 22, 2013 but the result was not reported correctly until August 6, 2013. It was originally submitted under the incorrect PWS ID number.

The Ohio EPA has assigned a specific public water supply identification number (PWS ID#) to each individual public water supply system located throughout Ohio. The purpose of this number is to match sample results with the correct system. Incorrect numbers may result in unnecessary violations.

The PWS ID number for Pleasant View Methodist Church is PWS ID #OH3238812.

Use of this number on all correspondence and sample analyses is appreciated.

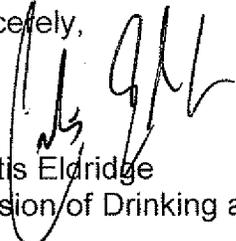

The violation has been rescinded and the public notice sent with the notice of violation referenced above does not need to be issued at this time.

OAC 3745-81-31 and 3745-89-08 require results to be reported by the tenth day following the month the sample was collected. Further, OAC 3745-89-08 requires the laboratory to report all positive, all repeat sample results and all samples required by OAC 3745-81-42 (Ground Water Rule) no later than the end of the next business day after the result was obtained. The sample was not reported in accordance with the above rules and this is considered a reporting violation.
