Mr. Dennis Valentine
Richardson Printing
201 Acme Street
Marietta, Ohio 45750

Dear Mr. Valentine:

On August 7 and 13, 2013, Ohio EPA inspected Richardson Printing's 201 Acme Street location in Marietta, Ohio. The purpose of the inspection was to determine compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

I found the following violations of Ohio's hazardous waste laws:

1. **OAC 3745-273-13(D)(1), Waste Management-Standards for Small Quantity Handlers of Universal Waste:** A handler must manage lamps in a way that prevents releases. Lamps must be contained in packages that are closed.

Richardson Printing was not properly containing spent fluorescent lamps in boxes. Uncontained spent lamps were observed in various areas of the facility. Other spent lamps were boxed but boxes were not closed. Following Ohio EPA's August 7, 2013 inspection, Richardson properly contained lamps. This was observed during Ohio EPA's August 13, 2013 inspection. Therefore, this violation has now been abated.

2. **OAC 3745-273-14 (E), Labeling/Marking Standards for Small Quantity Handlers of Universal Waste:** Each lamp or container in which lamps are contained must be marked clearly with the words "Universal Waste Lamps" or "Waste Lamps" or "Used Lamps".

Richardson Printing failed to properly label boxes of spent lamps. Boxes were unlabeled or did not have the proper markings. Following Ohio EPA's August 7, 2013 inspection, Richardson properly labeled the lamp containers. This was observed during Ohio EPA's August 13, 2013 inspection. Therefore, this violation has now been abated.

Richardson Printing has now abated all violations discovered during the August 7 and August 13, 2013 inspections.

REMARKS/GENERAL INFORMATION

General Process Information:

Richardson Printing is a general commercial printer that has been in business since 1944. The facility has 44 employees and consists of three separate buildings, each with individual addresses (173, 201 and 202 Acme Street, Marietta) and individual generator ID numbers. The operations

at 201 Acme St. involve sheet feeding five color printing and single color machines, letter press operations, multilith presses, and a bindery department where folding and stitching is performed when needed. A bulk mail processing department also is operated as needed. Vegetable based inks are used. When inks get old or are no longer useable, they are disposed of as a non hazardous waste. Used oil is generated from oil changes performed on press equipment and company vehicles. 201 Acme St is a nongenerator of hazardous waste.

Regulatory/Enforcement History (if applicable):

Last inspected in January 2010 and July 1994. Company has two other ID numbers at 173 and 202 Acme St. but only the 202 Acme St. location generates hazardous waste at this time. The ID numbers for 201 and 173 Acme St. will be deactivated.

Additional P2 remarks and information:

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.
