**RE: LORAIN COUNTY REGIONAL AIRPORT, OH3210490527  
LORAIN COUNTY, NON-GEN NOV-RTC**

Dear Mr. Fuge:

Thank you for cooperating with our July 2, 2013 hazardous waste inspection at the Lorain County Regional Airport. Shannon Ryan and I represented the Ohio EPA, and you represented the airport. We understand MRK Aviation provides fixed base operator services for the Lorain County Regional Airport. The airport is owned by the Lorain County Board of Commissioners.

In 1992 this site had notified us they were a hazardous waste generator. We understand there are currently no hazardous wastes generated at this site. A parts washer using mineral spirits is sometimes used, but has never had to be cleaned out. Some used oil is generated from maintaining aircraft, and some spent lamps and batteries are generated. All of these are sent off-site for recycling.

Your site was inspected for compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC), and with hazardous waste, used oil and universal waste rules as found in Chapter 3745 of the Ohio Administrative Code (OAC). One container of used oil was not properly labeled with the words "used oil" as required by Ohio Administrative Code 3745-279-22(C). It was immediately properly labeled, returning your facility to compliance with the rule. No further action related to this violation is needed.

Copies of the inspection checklists are enclosed. The hazardous waste rules cited above and on the checklists can be found on our division's web page at: <http://www.epa.ohio.gov/dhwm/>.
