**Re: Auto Assets
CESQG/Used Oil Generator
U.S. EPA ID#: OHR000001172
Delaware County, CDO
NOV/ RTC**

Dear Mr. Vance:

On July 21, 2010, I inspected the Auto Assets facility in Powell, Ohio to determine Auto Assets' compliance with Ohio's hazardous waste laws and rules as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). At the time of the inspection, Auto Assets was operating as a conditionally exempt small quantity generator (CESQG) of hazardous waste and a used oil generator.

During the inspection, I found the following violation of Ohio's used oil rules:

1. ***OAC Rule 3745-279-22(C)(1), Used oil storage requirements for generators:*** Containers and aboveground tanks used to store used oil at generator facilities must be labeled or marked clearly with the words "Used Oil".

At the time of the inspection, the containers storing used oil were either marked with the words "Waste Oil" or not labeled at all.

- During the inspection, Auto Assets properly labeled the containers storing used oil with the words "Used Oil." The violation was abated at that time.

General Comments

1. As discussed during the inspection, many types of lamps are hazardous waste and if they are from a business, they cannot be disposed in the trash. Ohio EPA recommends that you manage your waste lamps under the Universal Waste Rule, which eliminates many regulatory requirements such as waste evaluation,

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director

17

Mr. Chip Vance
Auto Assets
Page 2 of 2

manifesting, and record keeping. This rule also ensures that waste lamps will be properly recycled. I have enclosed additional information about fluorescent lamps, the universal waste rules, and a list of fluorescent lamp recyclers. More information is available at: <http://www.epa.ohio.gov/dhwm/universalwaste.aspx>.

2. As discussed during the inspection, empty aerosol cans can be sent off-site for recycling with your scrap metal. I have enclosed some additional information on the management of aerosol cans.

If you would like a free, non-regulatory on-site pollution prevention assessment or if you would like more information about pollution prevention, please contact Ohio EPA's Office of Compliance Assistance and Pollution Prevention at (800) 329-7518 or visit the following web address: <http://www.epa.ohio.gov/ocapp/>.

In addition, Ohio EPA's Division of Hazardous Waste Management has created an electronic news service to provide you with updates related to hazardous waste activities in Ohio. You can find more information and sign up for this free service at the following link: http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage.

Enclosed is a copy of the checklists that I completed as a result of the inspection. You can find Ohio's hazardous waste rules and other information on the division's web page at: <http://www.epa.ohio.gov/dhwm/>.

Should you have any questions, please feel free to call me at (614) 728-3887.

Sincerely,

Melissa M. Storch
Environmental Specialist
Division of Hazardous Waste Management
Central District Office

Comments:

PROCESS DESCRIPTION SECTION

Give a general process description (include all processes at the facility)

Auto Assets is located at 378 West Olentangy Street, Powell, Ohio, and operates an automotive repair shop and a sales/show room (parts and auto sales) at this location. The company focuses mainly on imported cars (Saab, VW, Volvo, Mercedes Benz, BMW, Porsche, and Audi) and performs regular and preventative maintenance services, pre-purchase inspections, mechanical restorations, track preparations, and auto detailing in its shop.

WASTE ACTIVITIES AND P2 SUMMARY SECTION

For each of the processes listed above that generate a waste give the following information: (1) name of process generating waste, (2) name or description of waste generated (e.g. sludge, solvent, ash, used oil, spent lamps, etc.), (3) EPA waste codes, if applicable, (4) quantity generated per month, (5) type of accumulation (container, tank, etc.) (6) waste accumulation location in facility, (7) type of on-site treatment (if used), (8) name of off-site management facility and type of waste management activity occurring there, (9) Current P2 activities, and (10) P2 opportunities.

At the time of my inspection, Auto Assets was operating as a conditionally exempt small quantity generator (CESQG) of hazardous waste and a used oil generator. Hazardous waste includes sludge generated from cleaning the facility's System 1 parts cleaner. It is serviced in house, and when sludge is generated, it is mixed with the company's used oil. The company also generates a flammable Brake Cleaner (D001) that is mixed with used oil. Such a small amount is generated on a regular basis that it takes 2 years for the company to go through a 55-gallon drum of brake cleaner. The company also operates a water-based parts cleaner, but it does not generate any hazardous waste.

Other wastes generated at Auto Assets include used oil and used oil filters, spent antifreeze (which is not hazardous), scrap metal, rags, batteries, scrap tires, and aerosol cans. The used oil is accumulated in containers and then managed by Environmental Specialists of Columbus. The used oil filters are drained and also managed by the used oil hauler. Scrap metal is sent to D&R Recycling, scrap tires to Fred's Used Tires, and batteries to Interstate Batteries. Used rags are sent to be laundered. I did not see any spent lamps on site during my inspection. Empty aerosol cans are currently being thrown away, but I let Auto Assets know that once they are emptied, they can be managed with the company's scrap metal. Finally, Auto Assets recycles all of its paper and plastic waste.

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or ≤ 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or >1 Kg. of acutely hazardous waste in a calendar month.
NOTE: To convert from gallons to pounds: Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.

Safety Equipment Used:

WASTE EVALUATION

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11]	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
----	--	---	-----------------------------	------------------------------

GENERATOR CLASSIFICATION

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")]	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
----	--	---	-----------------------------	------------------------------

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)] Auto Assets mixes its hazardous waste with used oil and manages it in accordance with the used oil rules.	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
----	--	------------------------------	-----------------------------	---

TREATMENT OF HAZARDOUS WASTE

4.	Does the generator treat hazardous waste in a:			
	a. Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	b. Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	c. Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	d. Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5.	Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
	a. Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:

https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

1. Does the generator manage used oil in a surface impoundment or waste pile? If yes: Yes No N/A

a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes No N/A

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes No N/A

3. Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes No N/A

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4. Does the generator mix hazardous waste with used oil? If so, Yes No N/A

a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes No N/A

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes No N/A

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6. Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes No N/A

7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes No N/A

8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] **At the time of the inspection, containers storing used oil were either not labeled or they were incorrectly marked with the words "Waste Oil." During the inspection, Auto Assets properly labeled the containers.** Yes No N/A

9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)] Yes No N/A

a. Stopped the release? Yes No N/A

b. Contained the release? Yes No N/A

c. Cleaned up and properly managed the used oil and other materials? Yes No N/A

d. Repaired or replaced the containers or tanks prior to returning them to Yes No N/A

	service, if necessary?	
ON-SITE BURNING IN SPACE HEATER		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i>		
GENERATOR TRANSPORTATION		
11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i>		
COLLECTION CENTERS AND AGGREGATION POINTS		
13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i>
