Arsenic Maximum Contaminant Level (MCL) Exceedance

Dear Public Water System Owner:

This letter is notification that MAPLE HEIGHTS MOBILE HOME PARK PWS is in violation for exceeding the maximum contaminant level (MCL) standard for arsenic of .010 mg/L as established in the Ohio Administrative Code (OAC) section 3745-81-11. Compliance with the arsenic MCL is based on a running annual average. The annual average for arsenic for the April 1 to June 30, 2007 time period is 0.021 mg/L.

To address the MCL violation the MAPLE HEIGHTS MOBILE HOME PARK PWS is required to take the following actions:

- 1) ISSUE PUBLIC NOTICE:
Within thirty days, issue public notice according to the enclosed instructions. Complete and return the verification form along with a copy of the public notice to my attention at the letterhead address within ten days after it is issued. If arsenic levels continue to exceed the MCL, the public notification must be updated and repeated for each period that the arsenic MCL is exceeded. A verification form and copy of the public notice must be sent to Ohio EPA each time the notice is repeated. The enclosed draft public notice may be used verbatim. The mandatory health language for arsenic must appear in the public notice. If you wish to make any changes to this draft, telephone this office for verbal authorization prior to issuing the public notice.
- 2) CONTINUE TO SAMPLE FOR ARSENIC:
Continue collecting one sample for arsenic analysis on a quarterly basis. Your next sample should be collected between July 1 and October 31, 2007 .
- 3) WORK TO RESOLVE THE PROBLEM:
Consult with your Ohio EPA district representative to discuss your options for coming into compliance and to establish a compliance schedule.

DRINKING WATER NOTICE

MAPLE HEIGHTS MOBILE HOME PARK PWS has Levels of Arsenic Above Drinking Water Standards

Our water system recently violated the maximum contaminant level (MCL) for Arsenic. The average level of arsenic over the last four quarters was 21 ug/L. The standard for arsenic is 10 ug/L.

What should I do?

You do not need to use an alternative (e.g., bottled) water supply.

However, if you have specific health concerns, consult your doctor.

What does this mean?

The levels detected do not pose an immediate risk to your health. However, some people who drink water containing arsenic in excess of the MCL over many years could experience skin damage or problems with their circulatory system, and may have an increased risk of getting cancer.

What is being done?

We are investigating and taking the necessary steps to correct the problem as soon as possible.

For more information, please contact _____ at _____ or _____
name of contact phone number mailing address

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support informed decision-making.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data security and privacy. It stresses the importance of implementing robust security measures to protect sensitive information from unauthorized access and breaches.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It reiterates the importance of a data-driven approach and encourages the organization to continue refining its data management practices to stay competitive in the market.

6. The sixth part of the document provides a detailed overview of the data collection process, including the identification of data sources, the design of data collection instruments, and the implementation of data collection protocols.

7. The seventh part of the document discusses the various methods used for data analysis, such as descriptive statistics, inferential statistics, and regression analysis. It explains how these methods are used to interpret the collected data and draw meaningful conclusions.

8. The eighth part of the document focuses on the importance of data visualization in presenting the results of the analysis. It discusses various visualization techniques, such as bar charts, line graphs, and pie charts, and their effectiveness in communicating complex data in a clear and concise manner.

9. The ninth part of the document addresses the ethical considerations surrounding data collection and analysis. It emphasizes the need for transparency, informed consent, and the protection of individual privacy throughout the entire data management process.

10. The tenth part of the document provides a final summary and concludes the report. It expresses the hope that the findings and recommendations presented in the document will be helpful in improving the organization's data management practices and overall performance.

11. The eleventh part of the document discusses the future directions of data management and analysis. It highlights emerging trends, such as the use of artificial intelligence and machine learning, and their potential impact on the field.

12. The twelfth part of the document provides a list of references and sources used in the report. It includes books, articles, and online resources that provide additional information on the topics discussed in the document.

13. The thirteenth part of the document is a concluding statement that reiterates the main points of the report and expresses the author's appreciation for the support and assistance provided throughout the project.
