Dear Mr. Lehman:

Thank you for your October 4, 2007, response to Ohio EPA's September 18, 2007, Notice of Violation letter. The documentation you submitted included an analytical data for the used paint booth filters generated at the facility. You also submitted the manifest for your last shipment of used filters as a hazardous waste, an explanation as to why your filters are no longer hazardous, and data and a MSDS for you fluorescent bulbs.

My review of this documentation reveals that Horton Emergency Vehicles has now abated all violations discovered during the August 28 and September 6, 2007 inspections as listed below.
