Return to Compliance

Dear Mr. Santo:

On March 15, 2007, Ohio EPA received your response to the February 26, 2007 notice of violation (NOV) letter. The documentation you submitted included a copy of a completed inspection log for the last week of February 2007, and the first two weeks of March 2007.

My review of the documentation reveals that Leggett & Platt has now abated the remaining violation discovered during the February 21, 2007 inspection, as listed below.

Letter Citation #	Rule Citation
1.	OAC Rule 3745-66-73, Inspections

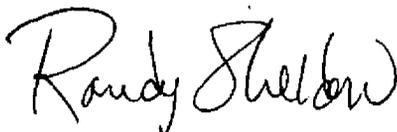

Again, as we discussed, these **weekly inspections must be conducted at least once every seven (7) days** when hazardous wastes are being managed in the hazardous waste accumulation area. If there is no hazardous waste in accumulation and the inspections are not completed for this reason, it should be noted in the inspection log as such. Deviations from the weekly inspection requirement without appropriate documentation could lead to escalated enforcement during future inspections.
