The documentation submitted included, but may not be limited to, the following: completed hazardous and universal waste inspection checklists; listings of responsibilities, actions to be taken, and completed training documentation for management of hazardous wastes, management of universal wastes, and inspections of hazardous and universal wastes accumulation areas; photographs as evidence of appropriate labeling of containers.

Based upon review of the documentation submitted, it has been determined that MTI has adequately abated the violations specified in Ohio EPA's notice of violation from October 2, 2009, as found below:
