Dear Mr. St. Clair:

Thank you for your June 25, 2007, response to Ohio EPA's May 29, 2007, Notice of Violation letter. The documentation you submitted included a plan for traffic and parking to label all oil used oil containing drums in the future. Also submitted was a plan to move the hazardous waste from Waterman Laboratory Farm pesticide rinse water area to the BCW 90 day area upon generation. Please be aware this area is subject to generator closure and generator closure must be conducted before the closing of the facility.

My review of this documentation reveals that Ohio State University has now abated all violations discovered during the May 17, 2007, inspection as listed below.

Letter Citation #	Rule Citation
1.	OAC Rule 3745-65-33, Testing and Maintenance of Equipment
2.	OAC Rule 3745-66-74, Inspection of Container Storage Area
3.	OAC Rule 3745-279-22 (C), Used Oil Labeling
