Mr. Josh Koester
Applied Technologies, Inc.
1722 Indian Wood Circle, Suite A
Maumee, Ohio 43537

Dear Mr. Koester:

On July 30, 2013, you accompanied Melissa Boyers and me during the Ohio Environmental Protection Agency's (Ohio EPA's) hazardous waste compliance evaluation inspection of your facility, Applied Technologies, Inc. (hereafter referenced as ATI) located at 1722 Indian Wood Circle in Maumee, Ohio. Specifically, we inspected your facility to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC), and Chapter 3745 of the Ohio Administrative Code. This letter will explain the violations we found.

ATI is an engineering design company. No manufacturing is done at this location. No hazardous wastes are generated. ATI does generate spent lamps on occasion. ATI has been in this location for approximately 7 years. The company that was at this location prior to ATI had received a hazardous waste identification number due to the fact that it generated hazardous waste.

At the time of our inspection, you were operating as a non-generator of hazardous waste.

I found the following violations of Ohio's hazardous waste laws:

1. Universal Waste Lamps, Labeling, OAC Rule 3745-273-14 (E):

A small quantity handler of universal waste must label or mark a container or package with such lamps with one of the following phrases: "Universal Waste Lamps," or "Waste Lamps," or "Used Lamps."

ATI failed to mark their used lamps with a proper label.

On the same day of our inspection, July 30, 2013, ATI transported the spent lamps to Environmental Recycling and dropped off a copy of the paperwork at our office. **Therefore, this violation is considered abated.**

2. Universal Waste Lamps, Management, OAC Rule 3745-273-13 (D) (1):

A small quantity handler of universal waste must manage lamps in a way that prevents releases of any universal waste or component of a universal waste to the environment by containing lamps in containers or packages and such containers must remain closed.

ATI did not have spent lamps in a container or box that was properly closed.

On the same day of our inspection, July 30, 2013, ATI transported the spent lamps to Environmental Recycling and dropped off a copy of the paperwork at our office. **Therefore, this violation is considered abated.**

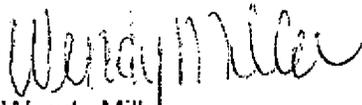

I left you with a copy of our guidance, "Universal Waste Rules for Handlers of Lamps" and a list of recyclers. Please refer to this in the future for management of lamps.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dhwm>. Ohio EPA also has helpful information about pollution prevention at the following web address: <http://www.epa.ohio.gov/opp>.

The Division of Materials and Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign-up for this free service. You can find more information at Web link <http://www.epa.ohio.gov/dhwm> (click on the link for DHWM Electronic Mailing List).
