Re: Former Jefferson Welds Facility – Jefferson, Ohio – Notice of Violation

Dear Mr. Jonckheere:

Ohio EPA is in receipt of the August, 2009 Monthly Operating Report for the former Jefferson Welds Facility at 82 West Ashtabula Street, Jefferson, Ohio. Based on the information received, ground water monitoring has been performed, however, the results have not been provided as required by Ohio Administrative Code Rule 3745-34-11(G)(3).

In order to operate under exemption status, the owner/operator must comply with OAC Rule 3745-34-11 G. Pursuant to OAC Rule 3745-34-11(K)(1), the Director may require the former Jefferson Welds Facility to apply for a Class V permit to operate should it fail to comply with any requirements of OAC Chapter 3745-34.

Once the most recent monitoring information and a completed inventory is provided, injection may resume but until that time, **no injection is authorized.**

Should you have any questions, please contact Jess Stottsberry of my staff at (614) 644-2752.

Sincerely,

Lindsay C. Taliaferro  
Underground Injection Control Unit Manager  
Division of Drinking and Ground Waters
