Re: Ricerca Bioscience LLC Remediation – Notice of Violation

Dear Mr. Loneker:

Ohio EPA's Underground Injection Control Unit has completed its review of the October 5, 2009 Ricerca Biosciences Monthly Operating Report representing July 2009. The report provided by Environ on behalf of Ricerca was submitted to meet the requirements of Ohio Administrative Code (OAC) Rule 3745-34-11(G)(3).

With a letter dated August 26, 2009, Ohio EPA informed Environ that the proposed remediation plan (June 5, 2009) met the Rule of OAC 3745-34-11(G)(2). In order to be authorized to inject and continue to inject without a permit, the owner/operator must meet all conditions of OAC Rule 3745-34-11(G). The UIC Unit has determined that the first monthly report failed to provide the inventory information as required by OAC Rule 3745-34-11(G)(4). This requirement was cited in the August 26, 2009 letter from this office.

In order to operate under exemption status, all inventory information must be provided as soon as possible. Once the inventory information is submitted, injection at the Ricerca 7528 Auburn Road site may resume. Until all inventory information is provided to Ohio EPA, **no injection is authorized.**

Any future rule violations may require Ricerca Biosciences to apply for a Class V permit to operate should it intend to continue injection activities.

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director
