Re: Closure of the Illegal Class V Injection System at SNS Express, Inc.

Mr. Sanford:

To date, Ohio EPA has not received notification of Closure for your illegal injection system. Your Closure Plan dated October 23, 2007 indicated that "the completion date for this project was November 10, 2007."

In accordance with Ohio Administrative Code (OAC) Rule 3745-34-13(F)(3), "Upon completion of closure, the owner or operator of class V wells that were used to inject industrial or other wastes shall certify to the director in a report according to rule 3745-34-17 of the Administrative Code that the class V well was closed in compliance with this rule."

Within ten (10) days of the date of this notice, you must provide Ohio EPA with the Closure Report which must be signed and certified in accordance with OAC Rule 3745-34-17(D) Certification. Any person signing a document under paragraph (A) or (B) of this rule shall make the following certification:

"I certify under the penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

Should you have any questions, please call me at (614) 644-2752.

Sincerely,

  
Jess Stottsberg
