BEFORE THE  
OHIO ENVIRONMENTAL PROTECTION AGENCY

In the Matter of:

DIRECTOR'S FINAL  
FINDINGS AND ORDERS

The Village of Salineville :  
34 Washington Street :  
Salineville, Ohio 43945 :

Respondent,

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to the Village of Salineville (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) Chapter 6109 and § 3745:01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent's public water system shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 6109 and the rules promulgated thereunder.

I certify this to be a true and accurate copy of the  
official documents as filed in the records of the Ohio  
Environmental Protection Agency.

By: Joseph Jackson Date: 4-9-07

#### IV. FINDINGS

The Director of Ohio EPA (Director) has determined the following findings:

1. Respondent owns and operates a "public water system" (PWS), which is also a "community water system" as defined by ORC § 6109.01 and Ohio Administrative Code (OAC) Rule 3745-81-01.
2. Respondent's PWS (PWS ID# 1502111) is located at State Route 39, Salineville (Carroll and Columbiana Counties), Ohio, 44011.
3. Respondent's PWS obtains its drinking water from a "surface water" source as defined by OAC Rule 3745-81-01 and serves a population of 1,397 persons.
4. On January 4, 1989, Respondent's PWS was designated by the Director as a Class II PWS in accordance with OAC Rule 3745-7-03.
5. Respondent was issued Director's Final Findings and Orders on July 22, 2005, and on October 2, 2006. As of January 2, 2007, Respondent has failed to complete certain requirements contained in these previous Orders.
6. In accordance with OAC Rule 3745-81-73 (A), all PWSs using conventional filtration treatment or direct filtration treatment to treat surface water shall meet the following requirements:
  - (A) Turbidity levels of representative samples of filtered water shall be less than or equal to 0.3 nephelometric turbidity units (NTU) in at least ninety-five per cent of the samples analyzed each month.
  - (B) The turbidity level of representative samples of a PWS's filtered water shall not exceed one NTU.
7. In violation of OAC Rule 3745-81-73 (A)(1), Respondent failed to provide sufficient filtration of its drinking water when the turbidity levels of representative samples of filtered water were not less than or equal to 0.3 NTU in at least ninety-five percent of the samples analyzed during the months: July 2005, August 2005, October 2005, November 2005, December 2005, January 2006, February 2006, April 2006, May 2006, June 2006, July 2006, October 2006, and November 2006.
8. In violation of OAC Rule 3745-81-73 (A)(2), Respondent failed to provide sufficient filtration of its drinking water when the turbidity levels of representative samples of filtered water were not less than one NTU during the months: April 2005, May 2005, June 2005, July 2005, June 2006, July 2006, October 2006, and November 2006.

9. In accordance of OAC Rule 3745-81-74 (A), turbidity measurements to ensure compliance with OAC Rule 3745-81-73 shall be performed on representative samples of filtered water at least every four hours the water treatment plant is in operation.
10. In violation of OAC Rule 3745-81-74 (A), Respondent failed to monitor turbidity either continuously or every four hours the water treatment plant was in operation during: April 2005, May 2005, June 2005, July 2005, August 2005, October 2005, January 2006, February 2006, March 2006, April 2006, September 2006, and October 2006.
11. In accordance with OAC Rule 3745-81-77 (B)(1), PWSs using surface water as a source which use conventional filtration treatment shall monitor for total organic carbon (TOC) no later than the point of combined filter effluent turbidity monitoring and representative of the treated water. All PWSs required to monitor under this paragraph shall also monitor for TOC in the source water prior to any treatment at the same time as monitoring for TOC in the treated water. These samples (source water and treated water) are referred to as paired samples. At the same time as the source water is taken, all systems shall monitor for alkalinity in the source water prior to treatment.
12. In violation of OAC Rule 3745-81-77, Respondent failed to monitor and/or report analytical results for TOC and/or alkalinity during the monitoring periods: July through September 2005, October through December 2005, January through March 2006, April through June 2006, and July through September 2006.
13. In accordance with OAC Rule 3745-81-75 (G)(4), PWSs monitoring for total chlorine under the requirements of OAC Rule 3745-81-70 shall report the following:
  - (A) The number of samples taken during each month of the last quarter;
  - (B) The monthly arithmetic average of all samples taken in each month for the last twelve months;
  - (C) The arithmetic average of the monthly averages for the last twelve months; and
  - (D) Whether the maximum residual disinfectant level (MRDL) was exceeded.
14. In violation of OAC Rule 3745-81-75 (G)(4), Respondent failed to monitor and/or report analytical results for total chlorine during the monitoring periods: July through September 2005, October through December 2005, January through March 2006, April through June 2006, and July through September 2006.

15. In accordance with OAC Rule 3745-7-02 (A)(1), version effective February 12, 2001 through December 21, 2006, each person owning or operating a PWS shall place the direct supervision for the technical operation and maintenance of such a PWS under the responsible charge of a certified operator having a valid certification of a class at least equal to that required by that PWS classification.
16. In violation of OAC Rule 3745-7-02 (A)(1), version effective February 12, 2001 through December 21, 2006, Respondent failed to place the technical operation and maintenance of its PWS under the responsible charge of a certified operator during the time periods: December 31, 2005 through May 7, 2006, July 29, 2006 through August 22, 2006, and September 13, 2006 through October 12, 2006.
17. In accordance with OAC Rule 3745-89-02, for the purpose of determining compliance with OAC Chapters 3745-81 and 3745-82 and Rules 3745-91-06 and 3745-9-09, including plant control tests but excluding water quality parameter determinations, or for other analyses required by the Director, only those analyses may be acceptable to the Director that are performed in:
  - (A) A laboratory located in the state of Ohio and holding a valid and unexpired laboratory certification under this chapter, and by an individual conducting analyses as designated on the laboratory certificate of approval; or
  - (B) "The State Principal Laboratory";..
18. In violation of OAC Rule 3745-89-02, Respondent was performing plant control tests during January 23 through April 11, 2006, under an expired Laboratory Certification for Wet Chemistry and during September 13 through October 13, 2006, without an individual designated on the laboratory certificate.
19. In accordance with OAC Rule 3745-96-04 (C), by July first annually, each community water system shall provide to the Director the following information:
  - (1) a copy of the report [Consumer Confidence Report (CCR)]; and
  - (2) a distribution certification, on a form acceptable to the Director, certifying that the report has been distributed to customers, a good faith effort to reach non-bill paying customers has been completed, and that the information is correct and consistent with the compliance monitoring data previously submitted to the Director.
20. In violation of OAC Rule 3745-96-04 (C), Respondent failed to prepare and submit the 2005 CCR and distribution certification form to Ohio EPA by July 1, 2006. The CCR and distribution certification form was untimely received September 26, 2006.

21. In accordance with OAC Rule 3745-83-01(I)(1), the owner or operator of a PWS required to monitor under paragraphs (G) and (H) of this rule shall prepare an operation report for each month of operation on forms acceptable to the Director and with OAC Rule 3745-83-01 (I)(2), the operation report shall be signed by the operator in responsible charge designated in accordance with OAC Rule 3745-7-02 and submitted to the district office no later than the tenth of the month following the month for which the report was prepared.
22. In violation of OAC Rule 3745-83-01, Respondent failed to prepare and submit an operation report or monthly operating report and/or submit the report by the tenth of the month following the month for which the report was prepared for the months: August 2005, September 2005, November 2005, December 2005, January 2006, March 2006, June 2006, July 2006, August 2006, and September 2006.
23. In accordance with OAC Rule 3745-81-74 (B)(1), a PWS that provides conventional filtration treatment or direct filtration treatment shall conduct continuous monitoring of turbidity for each individual filter effluent.
24. Respondent agreed to Director's Final Findings and Orders, issued July 22, 2005, in which Order # 4 required: "Within seventy-five (75) days of effective date of these Orders, Respondent shall monitor continuously for individual turbidity effluent every fifteen (15) minutes by providing each filter with individual turbidimeters to comply with the requirements of OAC Rule 3745-81-74 that became effective January 1, 2005. Respondent shall install equipment at the water treatment plant which will continuously record turbidity values to ensure compliance with OAC Rule 6745-81-74 (D)."
25. In violation of OAC Rule 3745-81-74 (B)(1) and Order #4 of the Director's Final Findings and Orders issued July 22, 2005, Respondent failed to install individual turbidimeters by the required date of October 5, 2005. The turbidimeters were untimely installed on October 21, 2005. Additionally, the turbidimeters were taken out of service for an unknown period of time between April 2006 and May 4, 2006, due to electrical power issues, and between September 13, 2006 and the beginning of October 2006 when there was difficulty with the meters producing accurate and acceptable measurements.
26. In accordance with OAC Rule 3745-81-23, all PWSs shall monitor as described in paragraph (B) of this rule to determine compliance with the maximum contaminant level (MCL) for nitrate. OAC Rule 3745-81-23 (B) states that all PWSs that are surface water systems shall monitor for nitrate monthly.

27. In violation of OAC Rule 3745-81-23 (B), Respondent failed to monitor for nitrate during the monitoring periods: September 2004, January 2005, April 2005, July 2005, June 2006, and September 2006.
28. On December 12, 2004, the Director issued Respondent a Chemical Monitoring Schedule for the compliance period that began January 1, 2005 and ended December 31, 2005.
29. On December 16, 2005, the Director issued Respondent a Chemical Monitoring Schedule for the compliance period that began January 1, 2006 and ended December 31, 2006.
30. In accordance with OAC Rule 3745-81-23(E), all community water systems shall monitor for the inorganic contaminants with MCLs listed in OAC Rule 3745-81-11(B). PWSs shall monitor inorganic chemicals according to a schedule provided by the Director.
31. In violation of OAC Rule 3745-81-23 (E) and Respondent's Chemical Monitoring Schedule for 2005, Respondent failed to monitor for antimony, arsenic, barium, beryllium, cadmium, chromium, cyanide, fluoride, mercury, nickel, selenium, and thallium during the monitoring period: January 1 through June 20, 2005.
32. In violation of OAC Rule 3745-81-23 (E) and Respondent's Chemical Monitoring Schedule for 2006, Respondent failed to monitor for antimony during the monitoring period: January 1 through May 31, 2006.
33. In accordance with OAC Rule 3745-81-24(B), community and nontransient noncommunity PWSs shall monitor for synthetic organic chemicals (SOCs) with MCLs listed in OAC Rule 3745-81-12 (E). PWSs shall monitor organic chemicals according to a schedule provided by the Director.
34. In violation of OAC Rule 3745-81-24 (B) and Respondent's Chemical Monitoring Schedules for 2005 and 2006, Respondent failed to monitor for alachlor, atrazine, and simazine during the monitoring periods: May 1 through July 31, 2005, and May 1 through July 31, 2006.
35. In accordance with OAC Rule 3745-81-24 (C), all community water systems shall monitor for total trihalomethanes (TTHM) and haloacetic acids five (HAA5) with MCLs listed in OAC Rule 3745-81-12(B). PWSs shall monitor for TTHM and HAA5 according to a schedule provided by the Director.

36. In violation of OAC Rule 3745-81-24 (C) and Respondent's Chemical Monitoring Schedule for 2006, Respondent failed to monitor for TTHM and HAA5 during the monitoring periods: April 1 through June 30, 2006, and July 1 through September 30, 2006.
37. In accordance with OAC Rule 3745-81-32, the owner or operator of a PWS shall provide public notice [regarding violation issued] to persons served by that PWS. The PWS, within ten (10) days of completing the public notification requirements under this rule for the initial public notice and any repeat notices, must submit to the Director a completed verification form indicating that it has fully complied with the public notification regulations. The PWS must include with this certification a representative copy of each type of notice distributed, published, posted, and made available to the persons served by the system and to the media.
38. In violation of OAC Rule 3745-81-32, Respondent failed to submit copies of the required public notices and verification forms for:
  - (A) Inorganic monitoring / reporting violations for monitoring periods: January 1 through June 30, 2005, and January 1 through May 31, 2006;
  - (B) TTHM and HAA5 monitoring / reporting violations for monitoring periods: April 1 through June 30, 2006, and July 1 through September 30, 2006;
  - (C) Nitrate monitoring / reporting violations for monitoring periods: September 2004, January 2005, April 2005, July 2005, June 2006, and September 2006;
  - (D) SOCs monitoring / reporting violations for monitoring periods: May 1 through July 31, 2005, and May 1 through July 31, 2006;
  - (E) Treatment technique violations for monitoring periods: July 2005, August 2005, October 2005, November 2005, December 2005, April 2006, May 2006, June 2006, July 2006, October 2006, and November 2006.
39. Respondent agreed to Director's Final Findings and Orders, issued July 22, 2005, in which Order # 2 required: "Within sixty (60) days of the date of non-compliance with any treatment technique requirements of OAC Rules 3745-81-72 and 3745-81-73, Respondent must make interim improvements to the water treatment plant. Improvements may consist of, but not limited to, optimization of the existing chemical feed, installation of alternative chemical feed equipment for addition of polymers/chemicals to improve turbidity removal, and/or rebuilding filters. Detail plans are required to be approved by the Ohio EPA prior to any major substantial change in a PWS."

40. In violation of Order #2 of Director's Final Findings and Orders, issued July 22, 2005, Respondent failed to make interim improvements within sixty (60) days of the date of non-compliance with any treatment technique requirements of OAC Rules 3745-81-72 and 3745-81-73.
41. Respondent agreed to Director's Final Findings and Orders, issued July 22, 2005, in which Order # 26b required: "In lieu of payment of the remaining \$5,000.00 of the civil penalty, Respondent shall implement a Supplemental Environmental Project (SEP) consisting of dredging of Respondent's water reservoir to increase raw water storage capacity."
42. Respondent agreed to Director's Final Findings and Orders, issued October 2, 2006, Order #6, "Respondent and Respondent's Class II Certified Operator, shall perform at least the following items at the PWS in accordance with OAC Chapter 3745-91, as applicable:
  - ...(B) Evaluate and repair filters including the underdrain system and the addition of new media as necessary;
  - ...(D) Inspect and repair as necessary the high service pumps including the packing;
  - (E) Thoroughly flush the distribution system after all repairs and tasks identified above have been completed. "
43. As of the effective date of these Orders, Respondent has failed to complete the requirements (listed in Finding # 42 above) of Director's Final Findings and Orders, issued October 2, 2006.
44. Each violation cited above represents a separate violation of ORC § 6109.31.

#### **V. ORDERS**

1. The Director's Final Findings and Orders issued on July 22, 2005, and October 2, 2006, shall be terminated. These Orders, as outlined below, hereby incorporate the outstanding requirements of the previous sets of Orders.
2. Respondent shall comply with its chemical contaminant monitoring schedule for the calendar year 2007 and all subsequent monitoring schedules issued by Ohio EPA.
3. Within thirty (30) days of the effective date of these Orders, Respondent shall notify the public, in accordance with OAC Rule 3745-81-32, for the violations identified in Finding # 38. Respondent shall provide Ohio EPA with copies of all public notices and verification forms.

4. Within thirty (30) days of the date of non-compliance with any treatment technique requirements of OAC Rules 3745-81-72 and 3745-81-73, Respondent must make interim improvements to the water treatment plant and notify Ohio EPA of such. Improvements may consist of, but are not limited to, optimization of the existing chemical feed, installation of alternative chemical feed equipment for addition of polymers/chemicals to improve turbidity removal, and/or rebuilding filters. In accordance with OAC Chapter 3745-91, detail plans are required to be approved by the Ohio EPA prior to any major substantial change in a PWS.
5. Respondent shall, in accordance with OAC Rule 3745-89-02, continue to have analyses performed in a laboratory located in the state of Ohio and holding a valid and unexpired laboratory certification under this chapter, and by an individual conducting analyses as designated on the laboratory certificate of approval.
6. Respondent shall retain on the premises of the water treatment plant or at the Buckeye Water District (BWD) offices all records required by OAC Rule 3745-81-33.
7. Respondent shall, in accordance with OAC Rule 3745-83-01, submit monthly operating reports and quarterly operating reports to Ohio EPA, Northeast District Office (NEDO), DDAGW, no later than the tenth of the month following the end of the period for which the report was prepared.
8. Within fifteen (15) days of the effective date of these Orders, Respondent shall submit documentation to Ohio EPA, NEDO, DDAGW, including but not limited to a copy of the signed managerial contract with the BWD, verifying that the BWD assumes all responsibilities for maintaining and operating Respondent's PWS.
9. Within fifteen (15) days of the effective date of these Orders, Respondent shall perform or install the following items at the PWS and provide documentation to Ohio EPA, NEDO, DDAGW when completed:
  - A. Continuously record the free chlorine values at the water treatment plant to ensure compliance with OAC Rule 3745-81-74(D).
  - B. Accurately measure the clearwell levels and be able to determine the daily peak hourly treatment flow rate in gallons per minute (GPM), so the Surface Water Treatment Plant Disinfection and Turbidity Monthly Operating Report is properly completed to ensure compliance with OAC Rule 3745-81-74.
10. Within thirty (30) days of the effective date of these Orders, Respondent shall perform or install the following items at the PWS and provide documentation to Ohio EPA, NEDO, DDAGW when completed for following items as referenced in Finding # 42:

- A. Evaluate and repair Filter #2 including the underdrain system and the replacement of the media.
  - B. Inspect and repair or replace as necessary the two (2) high service pumps including the packing in order to improve their operation, efficiency and reliability.
  - C. Thoroughly flush the distribution system after all repairs and tasks identified above have been completed.
11. Upon completion of Orders #9 and #10 and receipt of documentation from Respondent to Ohio EPA, NEDO, DDAGW confirming that all monitoring has been conducted and reported as required, that finished water analysis can demonstrate compliance with OAC Chapter 3745-81 for a period of time of not less than eight (8) days, and upon a site visit from Ohio EPA, NEDO without violations identified, Respondent shall be allowed to lift the Boil Advisory set forth in the Director's Findings and Orders, issued October 2, 2006, Order # 8.
  12. Respondent shall continue to employ the services of an Ohio EPA certified PWS operator with at least a Class II certification to be in responsible charge of the technical operation and maintenance of its PWS at a minimum of forty (40) hours per week with one (1) visit per day for seven consecutive days per week, in accordance with OAC chapter 3745-7. Thirty (30) days after completion of Orders # 9 and #10, and upon approval letter by Ohio EPA, the hours in which an Ohio EPA certified PWS operator with at least a Class II certification to be in responsible charge of the technical operation and maintenance of its PWS may be reduced to a minimum of five (5) days per week for a minimum of twenty (20) hours per week, in accordance with OAC Chapter 3745-7.
  13. On or before April 1, 2008, in accordance with OAC Chapter 3745-91, Respondent shall submit detail plans to Ohio EPA, NEDO, DDAGW for the construction of a water line connecting to the BWD.
  14. If Ohio EPA should require any revisions to the detail plans (Order #13), Respondent shall make changes or modifications and/or submit any additional information to Ohio EPA, NEDO, DDAGW, within thirty (30) days of receiving a comment letter from Ohio EPA.
  15. On or before September 1, 2008, Respondent shall begin construction of the water line extension to BWD.
  16. On or before March 1, 2009, in accordance with the detail plans (Order #13) approved by Ohio EPA under OAC Chapter 3745-91, Respondent shall complete construction of the water line extension so as to meet all applicable treatment requirements of OAC Chapter 3745-81 and OAC Rule 3745-91-09.

17. Thirty (30) days prior to connecting to BWD, Respondent shall submit plans to Ohio EPA, NEDO, DDAGW documenting how the treatment plant will be physically separated from the distribution.
18. Within thirty (30) days of connecting to the BWD, Respondent shall cease operation and physically separate the existing water treatment plant from the distribution system, and within one hundred twenty (120) days of connecting to the BWD shall properly decommission the water treatment plant.
19. Should Respondent fail to implement Orders #13 through #18 within the deadlines set forth in each Order, Respondent shall pay civil penalties to Ohio EPA to be deposited into the Drinking Water Protection Fund established pursuant to ORC § 6109.30. Payment shall be made by an official check(s) made payable to "Treasurer, State of Ohio" and submitted to Ohio EPA, Office of Fiscal Administration, P.O. Box 1049, Columbus, Ohio 43216-1049, together with a letter identifying the Respondent, in the appropriate amount(s) as set forth below:
  - a. Respondent shall be liable for and shall pay a penalty of one hundred dollars (\$100.00) per day for the first sixty (60) days of failure to meet any of the deadlines set forth in Orders #13 through #18, and, thereafter, a penalty of two hundred and fifty dollars (\$250.00) per day of failure to meet the deadline(s).
  - b. The penalties stipulated in Order #19.a. for failure to meet the deadlines in Orders #13 through #18 shall not exceed one hundred thirty seven thousand six hundred seventy six dollars (\$137,676.00).
20. In lieu of implementing the \$5,000.00 SEP agreed upon in the Director's Findings and Orders, issued July 22, 2005 (Finding #39), Respondent shall implement a SEP consisting of the following:
  - a. Within ninety (90) days of the effective date of these Orders, the Respondent shall inspect and repair or replace the raw water valves from both the reservoir and the creek so that the raw water source can be isolated as needed; and
  - b. Within ninety (90) days of the effective date of these Orders, the Respondent shall install telemetry to accurately determine the water level in the finished water reservoir.

## **VI. TERMINATION**

Respondent's obligations under these Orders shall terminate when Respondent certifies in writing and demonstrates to the satisfaction of Ohio EPA that Respondent has performed all obligations under these Orders and the Chief of Ohio EPA's DDAGW acknowledges, in writing, the termination of these Orders. If Ohio EPA does not agree that all obligations have been performed, then Ohio EPA will notify Respondent of the obligations that have not been performed, in which case Respondent shall have an opportunity to address any such deficiencies and seek termination as described above.

The certification shall contain the following attestation: "I certify that the information contained in or accompanying this certification is true, accurate and complete." This certification shall be submitted by Respondent to Ohio EPA and shall be signed by a responsible official of Respondent. For purposes of these Orders, a responsible official is as defined in OAC Rule 3745-33-03(D)(4) for a municipal facility.

## **VII. OTHER CLAIMS**

Nothing in these Orders shall constitute or be construed as a release from any claim, cause of action or demand in law or equity against any person, firm, partnership or corporation, not a party to these Orders, for any liability arising from, or related to the operation of Respondent's PWS.

## **VIII. OTHER APPLICABLE LAWS**

All actions required to be taken pursuant to these Orders shall be undertaken in accordance with the requirements of all applicable local, state, and federal laws and regulations. These Orders do not waive or compromise the applicability and enforcement of any other statutes or regulations applicable to Respondent.

## **IX. MODIFICATIONS**

These Orders may be modified by agreement of the parties hereto. Modifications shall be in writing and shall be effective on the date entered in the journal of the Director of Ohio EPA.

## **X. NOTICE**

All documents required to be submitted by Respondent pursuant to these Orders shall be addressed to:

Ohio Environmental Protection Agency  
Northeast District Office  
Division of Drinking and Ground Waters  
2110 E. Aurora Road  
Twinsburg, Ohio 44087  
Attn: Bob Henn

or to such persons and addresses as may hereafter be otherwise specified in writing by Ohio EPA.

#### **XI. RESERVATION OF RIGHTS**

Ohio EPA and Respondent each reserve all rights, privileges and causes of action, except as specifically waived in Section XII of these Orders.

#### **XII. WAIVER**

In order to resolve disputed claims, without admission of fact, violation or liability, and in lieu of further enforcement action by Ohio EPA for only the violations specifically cited in these Orders, Respondent consents to the issuance of these Orders and agrees to comply with these Orders. Compliance with these Orders shall be a full accord and satisfaction for Respondent's liability for the violations specifically cited herein.

Respondent hereby waives the right to appeal the issuance, terms and conditions, and service of these Orders, and Respondent hereby waives any and all rights Respondent may have to seek administrative or judicial review of these Orders either in law or equity. Notwithstanding the preceding, Ohio EPA and Respondent agree that if these Orders are appealed by any other party to the Environmental Review Appeals Commission, or any court, Respondent retains the right to intervene and participate in such appeal. In such an event, Respondent shall continue to comply with these Orders notwithstanding such appeal and intervention unless these Orders are stayed, vacated or modified.

#### **XIII. EFFECTIVE DATE**

The effective date of these Orders is the date these Orders are entered into the Ohio EPA Director's journal.

**XIV. SIGNATORY AUTHORITY**

Each undersigned representative of a party to these Orders certifies that he or she is fully authorized to enter into these Orders and to legally bind such party to these Orders.
