PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Aber's Garage, Inc. dba Aber's Truck Center (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent or of the Facility shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.

I certify this to be a true and accurate copy of the official documents as filed in the records of the Ohio Environmental Protection Agency.

By: John Kossler Date: 10-28-09

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a person as defined in ORC § 3734.01(G) and OAC rule 3745-50-10(A).
2. Respondent operates a truck servicing center business located at 1729 Claremont Avenue, Ashland, Ashland County, Ohio (Facility)
3. At the Facility, Respondent generates hazardous waste as defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent currently generates hazardous waste in amounts less than 1000 kilograms per month (also known as a conditionally exempt quantity generator). Respondent generated hazardous paint waste and parts cleaner - D001, F002, F003, and F005 - as defined in OAC rules 3745-51-21 and 3745-51-31 from cleaning and painting of parts during truck servicing operations. Additionally, Respondent generates used oil and universal waste.
4. Respondent notified Ohio EPA of its hazardous waste activities and was issued generator identification number OHD987030368.
5. On May 12, 2008, Ohio EPA received a complaint alleging Respondent disposed of used oil into the storm drains.
6. As a result of the May 12, 2008 complaint, Ohio EPA conducted a complaint investigation and compliance evaluation inspection on June 4, 2008, at the Facility. As a result of the investigation and inspection, Ohio EPA determined that the Respondent had, *inter alia*:
 - a. Failed to evaluate wastes, including fifteen drums containing unknown waste, in violation of OAC rule 3745-52-11;
 - b. Failed to properly manage universal waste, in violation of OAC rules 3745-273-14 and 3745-273-15; and
 - c. Failed to properly manage used oil, including failure to clean up releases of used oil, in violation of OAC rule 3745-279-22.
7. By letter dated June 25, 2008, Ohio EPA notified Respondent of the violations referenced in Finding No. 6. of these Orders.

8. As a result of the complaint investigation and compliance inspection, Respondent conducted a sampling event on June 12, 2008, to evaluate the waste in the fifteen drums as described in Finding No. 6.a. Also during the June 12, 2008 sampling event, Ohio EPA observed stained soil underneath the containers.
9. On July 16, 2008, Respondent submitted analytical results from its June 12, 2008 sampling event to Ohio EPA. On August 18, 2008, Respondent submitted additional waste process information. Based upon the information submitted, fourteen drums stored at the Facility contained D001, F002, F003, and F005 hazardous waste, as defined in OAC rules 3745-51-21 and 3745-51-31.
10. Due to the staining observed during the June 12, 2008, sampling event referenced in Finding No. 8., Respondent conducted another sampling event on June 14, 2008, to determine if hazardous waste had been disposed to the ground where the stained soil was observed. During this event, approximately eight cubic yards of soil were removed and placed into a roll-off container and sampled. The soil which was removed was the area where the drums were stored and the stained soil was observed. No further staining of soil was visible after the soil was removed.
11. On July 16, 2008, Respondent submitted to Ohio EPA analytical results of sampling described in Finding No. 10. These results indicated that hazardous waste had been disposed of to the ground.
12. Based upon the information described in Finding No. 11., the Director has determined that Respondent established and operated a hazardous waste disposal facility without a permit, in violation of ORC § 3734.02(E) and (F).
13. By letter dated December 12, 2008, Ohio EPA notified Respondent based upon the information described in Finding No. 9, Respondent had, *inter alia*:
 - a. Established and operated a hazardous waste storage facility without a permit, in violation of ORC § 3734.02(E) and (F).
 - b. Failed to properly manage containers of hazardous waste in violation of OAC rule 3745-52-34(D); and
 - c. Failed to receive an U.S. EPA Identification number, in violation of OAC rule 3745-52-12.

14. By letters dated June 25, 2008 and December 12, 2008, Ohio EPA notified Respondent that the violations in Findings Nos. 6.a., 6.b., and 6.c. had been abated.
15. On March 16, 2009, Respondent caused the transportation of the hazardous waste containing soil (F003, F005) as described in Findings Nos. 10 and 11 off-site for disposal at a hazardous waste landfill.
16. By letter dated July 14, 2009, Ohio EPA notified Respondent that the violations in Finding Nos. 13.b. and 13.c. had been abated.
17. By letter dated August 7, 2009, Respondent submitted to Ohio EPA for approval a sampling and analysis plan (SAP) in order to determine if any additional clean up/soil removal of the area, referenced in Finding No. 10., was required.
18. By letter dated August 28, 2009, Ohio EPA approved Respondent's SAP.
19. On September 10, 2009, Respondent implemented, with Ohio EPA oversight, the approved SAP as referenced in Finding No. 18.
20. In a facsimile letter dated October 7, 2009, Respondent submitted to Ohio EPA analytical results from the approved SAP.
21. Based upon the removal of the soil referenced in Finding No. 10. and a review of the analytical results submitted to Ohio EPA as referenced in Finding No. 20., the Director has determined that Respondent has met the closure performance standard requirements of OAC rule 3745-55-11 for the area referenced in Finding No. 10 and no further action is required to abate the violation referenced in Finding No. 12.
