PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Sauder Woodworking Co. (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated there under.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).
2. Respondent operates a manufacturing company of ready to assemble laminated press board and fiber board furniture, cabinetry and shelving, located at 502 Middle Street, Archbold, Fulton County, Ohio (Facility).
3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a large quantity generator of hazardous waste and has been assigned EPA ID number OHD005035167. The hazardous wastes generated by Respondent at the Facility include hazardous waste spent catalyst and rinse water (D002), cleaning solutions from various processes (D001/D002/F005), paint and solvent soaked rags and debris (D001/F005), solid chromium waste from leather lamination process (D007), and acetone (F003). Respondent is a large quantity handler of universal waste and generates spent lamps and batteries. Respondent also generates used oil.
4. On March 13 and 16, 2007, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of this inspection, Ohio EPA determined that Respondent had *inter alia*:
 - a. Transported hazardous waste through the Facility and along a public right-of-way to a hazardous waste storage location in a manner that caused Respondent to be in violation of ORC § 3734.02 (E) and (F);
 - b. Failed to mark containers with the accumulation date, in violation of OAC rule 3745-52-34(A)(2);
 - c. Failed to label containers with the words "Hazardous Waste," in violation of OAC rule 3745-52-34(A)(3);
 - d. Failed to conduct and record container inspections, in violation of OAC rule 3745-66-74;
 - e. Failed to provide and document personnel training for employees who handle hazardous waste, in violation of OAC rules 3745-65-16(B), (C), and (D);
 - f. Failed to have a contingency plan that meets the rule requirements, in violation of OAC rules 3745-65-51 through 3745-65-53;
 - g. Failed to conduct and document testing of emergency equipment, in violation of OAC rule 3745-65-33;
 - h. Failed to label and date universal waste batteries and lamps, in violation of OAC rules 3745-273-34(A), (C) and (E); and
 - i. Failed to ensure that employees are thoroughly familiar with proper universal waste management, in violation of OAC rule 3745-273-36.

5. By letter dated May 10, 2007, Ohio EPA notified Respondent of the violations referenced in Finding No. 4 of these Orders.
6. By letters dated May 25, June 8, June 22, June 29, and September 20, 2007, Respondent submitted documentation in response to the violations referenced in Finding No. 4 of these Orders.
7. By letter dated September 26, 2007, Ohio EPA notified Respondent that Respondent had abated the violations referenced in Finding Nos. 4.b.through 4.j.
8. The Director has determined that because Respondent transported, or caused to be transported, hazardous waste along a public right-of-way, Respondent was in violation of ORC § 3734.02 (F). Because Respondent is now properly transporting hazardous waste by an alternate route not causing Respondent to travel down a public road, the Director has determined that no further action is required of Respondent to abate the violation of ORC § 3734.02 (F).
9. Because Respondent will continue to store hazardous waste in the less than ninety day accumulation area and because no releases of hazardous waste were observed or reported, the Director has determined that no additional action is required of Respondent regarding the ORC § 3734.02(E) and (F).
