**Re: Centerpointe II / Franklin County**

Dear Mr. Rice:

This letter is written regarding the storm water inspection I conducted of the construction site at the Centerpointe II development, located along Toy Road, in Franklin County, on November 21, 2011. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

**Sediment and Erosion Controls:**

During the site visit, it was noted that there were no construction activity at the site. There were several large stockpiles that were stabilized. Please be aware that there was garbage that was being dumped at the site. The site had an uncovered dumpster, old furniture and paint cans with paint dumped on the ground. Please see attached picture.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
