**Re: Notice of Termination Inspection at State Route 16 and Cedar Road
Permit #: 4GC03463*AG**

Dear Mr. Babei:

This letter is written in follow-up to a construction storm water inspection, I conducted at State Route 16 and Cedar Road in Newark, Ohio on December 28, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

It appeared during the inspection that construction activity appears completed for this site. A Notice of Termination will be required provided the following items are addressed:

- The recently seeded and mulched areas on the north end of State Route 16 near the exit must exhibit successful vegetation measured by a minimum density of 70 percent.
- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction mandates can be found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at harry.kallipolitis@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria with your submittal.
- A Notice of Termination (NOT) must be submitted once the post construction requirements are verified. The NOT form and filing instructions can be found at: <http://www.epa.state.oh.us/dsw/storm/stormform.aspx>.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
