**Re: Fairfield Christian Church, North Campus  
NPDES Permit 4PR00103/ OH0136638  
Reconnaissance Inspection  
Fairfield County  
Notice of Violation**

Dear Mr. Liest:

On January 12, 2012, a Reconnaissance Inspection was conducted at the Fairfield Christian Church, North Campus. Present for the inspection were Mike Kerns, Fairfield Christian Church Maintenance Supervisor and Cole Miller and myself of the Ohio EPA, Central District Office, Division of Surface Water.

The purpose of the inspection was to evaluate compliance with the terms and conditions of your NPDES permit and to evaluate the operation and maintenance of the plant. The findings of the inspection are as follows:

- Fairfield Christian Church must immediately retain the services of a qualified Class 1 wastewater plant operator to assure proper operation of the plant. This is a requirement of the NPDES permit, Part II, Sections A and B. Once the operator is hired, Fairfield Christian Church shall complete the proper form denoting the operator of record and submit it to the Ohio EPA. A copy of this form was presented to Mr. Kerns during the inspection. This form may also be completed on-line. Please contact Paul Vandermeer once this has been accomplished.
- The effluent flow measurement device requires calibration by a qualified outside source on an annual basis. There was no record of calibration for this device. Calibration must take place within the next 30 days. Proper calibration of flow allows for accurate calculation of pollutant loadings to waters of the state.
- There have been several effluent limit violations (Attachment A) noted over the last year, mostly for dissolved oxygen. Please ensure that dissolved oxygen measuring equipment is serviceable and calibrated before the needed measurement is taken. This will assure accurate readings.

- Frequency violations for color, odor, and turbidity can be eliminated by using the AN code on the eDMR during times when the plant is not normally staffed (typically weekends and holidays). If you need assistance with filing eDMRs, contact James Roberts ([James.Roberts@epa.state.oh.us](mailto:James.Roberts@epa.state.oh.us)).
- The outfall sign must be moved in close proximity of the outfall pipe at the pond. The current location on the plant building is not appropriate.

**Please respond in writing by February 12, 2012 outlining the ways Fairfield Christian Church will comply with the findings of this inspection. Retaining a certified class 1 wastewater plant operator should be accomplished on or before the response date.**

If you have any questions or comments concerning the enclosed inspection report, please contact me at (614) 728-3854 or e-mail at [paul.vandermeer@epa.ohio.gov](mailto:paul.vandermeer@epa.ohio.gov).
