**Re: Construction Storm Water Inspection at New Albany Presbyterian Church on  
January 30, 2012, Permit Number 4GC03557\*AG**

Dear Mr. Clark

This letter is written regarding the storm water inspection conducted I conducted at New Albany Presbyterian Church on January 30, 2012. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

**Sediment and Erosion Controls:**

- Area construction is nearing completion. Please continue to ensure all barren areas are protected from erosion. Given the time of year, a crimped mulch cover or equivalent is expected to be maintained through the winter months.

**Post Construction Requirements:**

- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction requirements is found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us)) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria and calculations in your submission.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at: [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us). A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
