Mr. Mark Hackenburg  
Buckeye Acres Campground  
960 County Road 278  
Clyde, Ohio 43410

Dear Mr. Hackenburg:

On February 9, 2011, I observed construction activity at the site of the Buckeye Acres Campground, located behind 960 County Road 278, York Township, Sandusky County. The purpose of this visit was to evaluate compliance of the site with the National Pollutant Discharge Elimination System (NPDES) permit for storm water discharges associated with construction activity also known as the Construction General Permit (CGP). The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

As a result of the inspection, I have the following comments/observations:

1. At the time of the inspection, there was earth moving activity.
2. At the time of the inspection the Storm Water Pollution Prevention Plan (SWP3) and inspection logs were not reviewed.
3. There was no appropriate construction entrance and dirt was being tracked onto County Road 278. *This is a violation of Part III.G.2.g. of the CGP, which requires that the tracking of sediments be minimized.*

Within 15 days of the date on this letter, please submit to this office **written notification** of the actions taken or proposed to prevent any future violations. Your response should include the dates, either actual or proposed, for the completion of the actions. With your response, please submit the Storm Water Pollution Prevention Plan that was developed for this site.
