Dear Mr. Harrison:

On January 25, 2012, Jennifer Witte and I conducted a Compliance Evaluation Inspection (CEI) at the Bellaire Harbor Services barge loading and salvaging operation. You represented the facility on the inspection.

The purpose of the inspection was to determine the facility's compliance status with the terms and conditions of the NPDES permit number 0IL00143*AD. A copy of the inspection form is attached. There was no discharge at the time of the inspection.

We have determined that the current permit is not appropriate for the site. We believe a General Industrial Stormwater NPDES permit would be appropriate for the activities at your facility. On February 9, 2012 we discussed our concerns with you regarding the barge salvaging area and made suggestions regarding proper drainage controls. We recommend you have a Stormwater Pollution Prevention Plan (SWPPP) prepared incorporating these ideas and showing management practices for the barge and truck loading/unloading areas. Submit the SWPPP along with a Notice of Intent (NOI)(Application for a General Industrial Stormwater NPDES Permit) within 45 days of receipt of this report. Once we have evaluated the SWPPP and you have made any necessary changes, we will revoke your current permit, 0IL00143*AD, and issue you coverage under the general permit. Your consultant, Hamilton and Associates, has already contacted me on February 14, 2012, for information regarding the project.

If you have any questions, please contact me at (740) 380-5284 or Aaron Wolfe at (740) 380-5277.

Sincerely,
