Dear Sir or Madame:

This letter is written regarding a preliminary storm water investigation I conducted at your facility on March 6, 2012. The purpose of the inspection was to verify your No-Exposure Exemption (NOE) in accordance with Ohio EPA's Storm Water Program.

This facility is required to seek storm water permit coverage, from Ohio EPA in accordance with 40 CFR 122.26, authorizing storm water discharges or obtain a NOE. The permit requires the development and implementation of a Storm Water Pollution Prevention Plan (SWPPP). The SWPPP mandates specific storm water practices, which minimize storm water contamination, associated with external operations or exposed materials.

It is my understanding; you have submitted and obtained a No-Exposure Exemption for this facility as you claim there are no activities or exposed materials, which pose a threat to storm water. This inspection was conducted to ensure your NOE is valid.

Based on my observations, I noted:

There are no activities or materials exposed to storm water and find your NOE valid. Please understand a NOE must be submitted every five years to reflect any potential changes in the facility. Additional Information regarding the NOE can be found at the following address: http://epa.ohio.gov/portals/35/storm/no_exposure_certification_fis.pdf

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844

Sincerely

Harry Kallipolitis
